Cousins, Daniel Derrin, 2023-05-05 This volume is the first to discuss the canon of Pope's verse in relation to Early British Enlightenment thinking about mythology and mythography Pope did not

merely use classical along with non classical mythology in his verse as a traditional richly diverse medium through which to represent the diversity of private and civic life in his day but he was an ambitious translator as well as refashioner of myth It is a medium that he shapes anew and variously across all his major poems This volume enhances appreciation of myth as a mode of apprehension as well as expression throughout Pope s verse In doing so it illuminates how in early eighteenth century Britain understandings of what myth is and what it does were taking new directions not least in response to Baconian thought and its legacy
