The Art and Architecture of Islam 1250-1800 Sheila S. Blair, Jonathan M. Bloom, 1996-09-25 They discuss for example how the universal caliphs of the first six centuries gave way to regional rulers and how in this new world order Iranian forms techniques and motifs played a dominant role in the artistic life of most of the Muslim world the one exception was the Maghrib an area protected from the full brunt of the Mongol invasions where traditional models continued to inspire artists and patrons By the sixteenth century say the authors the eastern Mediterranean under the Ottomans and the area of northern India under the Mughals had become more powerful and the Iranian models of early Ottoman and Mughal art gradually gave way to distinct regional and imperial styles

beyond canonical explanations Studies in Islamic Civilization Ahmed Essa,Othman Ali,Othman Ali ,2010-01-01 Studies in Islamic Civilization draws upon the works of Western scholars to make the case that without the tremendous contribution of the Muslim world there would have been no Renaissance in Europe For almost a thousand years Islam was arguably one of the leading civilizations of the world spanning a geographic area greater than any other It eliminated social distinctions between classes and races made clear that people should enjoy the bounties of the earth provided they did not ignore morals and ethics and rescued knowledge that would have been lost if not forever then at least for centuries The genius of its scholars triggered the intellectual tradition of Europe and for over seven hundred years its language Arabic was the international language of science Strange then that its legacy lies largely ignored and buried in time In the words of Aldous Huxley Great is truth but still greater from a practical point of view is silence about truth By simply not mentioning certain subjects propagandists have influenced opinion much more effectively than they could have by the most eloquent denunciations Studies in Islamic Civilization is a compelling attempt to redress this wrong and restore the historical truths of a golden age that ushered in the Islamic renaissance and as a by product that of the West In doing so it gives a bird s eye view of the achievements of a culture that at its height was considered the model of human progress and development

Muslim Becoming Naveeda Khan,2012-05-22 This thoughtful ethnography of Islam in Pakistan moves from the smallest scale a single worshiper striving to be a better Muslim who is seeking guidance at a neighborhood mosque to the largest examining the thought of poet and philosopher Muhammad Iqbal considered to be the spiritual visionary of the country
