

Panther The first Panther has been sitting around for weeks, unused and dusty for some time now and 1977 is no exception. You can count on it. The new Panther has a few new touches that keep the Panther in front like the emergency stop switch located in a handy reach on the handlebars. And the standard emergency front skidbars on the foot bar, as well as the ski... they provide both control and extra safety. The exclusive Panther Cat snowmobile engine are designed to use 100% unleaded gasoline. Even the well-known Panther side has been improved. Panther engineers figured out a way to add maximum speed

to your winter fun engine engine. The trouble-free, reliable emergency stop switch is the latest example of the emphasis on safety features at Panther Cat. Panther Cat has been working together with industry groups and researchers to develop good snowmobile safety standards. And Panther Cat snowmobiles have achieved the highest with advanced lighting and safety features, quality materials, advanced rider protection from moving parts. We have built-in safety cables and completely waterproofed electrical systems, and an active program of safety education. So, the more you can count on the Cat.
