

Example of Annotated Bibliography in MLA Format (with Evaluations of the Source)

The diagram illustrates the MLA format for an annotated bibliography. It shows two entries, each with a citation and an annotation. The citation is centered, and the annotation is indented 1/2 inch. The entire entry is centered on the page. The citation is followed by the author's name and page number, right-aligned. The annotation is followed by a summary and an evaluation. The diagram includes red arrows and text indicating the following details:

- Citation:** Doerr, John. *Measure What Matters: How Google, Bono, and the Gates Foundation Rock the World with OKRs*. Penguin, 2018.
- Annotation:** This book is written by Doerr, who is the chair of a venture capitalist group. The book describes how business organizations can use OKRs to drive the focus of a company through agility, which leads to explosive growth. There are first-person, behind the scenes case studies narrated by leaders like Bill Gates and Bono. This book helps guide understanding of business and management strategies that drive the success of large companies.
- Evaluation:** This book contains 282 original letters, song lyrics, casualty lists, transcripts of witness testimony, original newspaper accounts. It's a supplement to the anthology published in 128 volumes "The War of the Rebellion: A compilation of the Official Records of the Union and Confederate Armies". The author is a historian-archaeologist. This book is an excellent source for primary documents and offers a fresh narrative of the civil war in the New Mexico territory. Many people think of the Civil War as a battle between the Union and the Confederacy. This book gives the Civil War history researcher a glimpse at the battles happening in the Southwest, as well.

Annotations are labeled as **Summary** and **Evaluation**.

Tips:

- Clear font like Times New Roman, 12 pt., double spaced
- 1 inch margins throughout
- Last name and page number 1/2 inch down, right aligned
- List authors in alphabetical order
- First line of annotation indented 1/2 inch

This volume contains papers selected for presentation at the 6th IAPR Workshop on Document Analysis Systems DAS 2004 held during September 8 10 2004 at the University of Florence Italy Several papers represent the state of the art in a broad range of traditional topics such as layout analysis applications to graphics recognition and handwritten documents Other contributions address the description of complete working systems which is one of the strengths of this workshop Some papers extend the application domains to other media like the processing of Internet documents The peculiarity of this 6th workshop was the large number of papers related to digital libraries and to the processing of historical documents a taste which frequently requires the analysis of color documents A total of 17 papers are associated with these topics whereas two years ago in DAS 2002 only a couple of papers dealt with these problems In our view there are three main reasons for this new wave in the DAS community From the scientific point of view several research fields reached a thorough knowledge of techniques and problems that can be effectively solved and this expertise can now be applied to new domains Another incentive has been provided by several research projects funded by the EC and the NSF on topics related to digital libraries

Provenance and Annotation of Data and Process Deborah L. McGuinness, James R. Michaelis, Luc Moreau, 2010. The 7 revised full papers, 11 revised medium length papers, 6 revised short and 7 demo papers presented together with 10 poster abstract papers describing late breaking work were carefully reviewed and selected from numerous submissions. Provenance has been recognized to be important in a wide range of areas including databases, workflows, knowledge representation and reasoning and digital libraries. Thus many disciplines have proposed a wide range of provenance models, techniques and infrastructure for encoding and using provenance. The papers investigate many facets of data provenance: process documentation, data derivation and data annotation.
