ArcGIS Web Development Rene Rubalcava,2014-11-11 Summary ArcGIS Web Development is an example rich tutorial designed to teach developers to use the ArcGIS JavaScript API to build custom GIS web applications About the Technology Now you can unshackle your GIS application from a workstation Using the ArcGIS JavaScript API developers can build mobile and web based maps and applications driven by ArcGIS data and functionality Experienced ArcGIS developers will find that the familiar development environment provides a smooth transition to the web Web developers new to GIS will be pleased by how easily they can apply their existing skills to GIS applications Purchase of the print book includes a free eBook in PDF Kindle and ePub formats from Manning Publications About the Book ArcGIS Web Development is an example rich guide that teaches you to use the ArcGIS JavaScript API to build custom GIS web applications The book begins with easy to follow examples that introduce readers to the ArcGIS JavaScript API and show how you can apply simple customizations As the book progresses you ll explore a full scale web mapping application By the end you will be able to build web apps that have features you d ordinarily expect to find only in dedicated GIS applications Written for web developers familiar with JavaScript and basic GIS concepts Experience with ArcGIS is helpful but not necessary What s Inside Build web based GIS applications Customize the ArcGIS Javascript API tools Bring ArcGIS data to the web Create secure logins for mobile app users About the Author Rene Rubalcava is the cofounder of SmartGeoTech Inc a GIS development company specializing in Esri technologies Table of Contents PART 1 ARCGIS JAVASCRIPT FOUNDATION GIS as a tool Introducing core API concepts Working with the REST API PART 2 SAMPLE USE CASE Building an application Developing a custom data collection application Building a desktop browser application Advanced techniques APPENDICES Setting up your environment Dojo basics Configuring a proxy *Building Web Applications with ArcGIS* Hussein Nasser,2014-11-19 If you are a GIS user or a web programmer this book is for you This book is also intended for all those who have basic web development knowledge with no prior experience of ArcGIS and are keen on venturing into the world of ArcGIS technology The book will equip you with the skills to comfortably start your own ArcGIS web development project *Developing Mobile Web ArcGIS Applications* Matthew Sheehan,2015-02-27 This guide is invaluable to those just starting out with GIS development but will also benefit GIS professionals wishing to expand their development skills to include mobile apps ArcGIS for JavaScript Developers by Example Jayakrishnan Vijayaraghavan,Yogesh Dhanapal,2016-04-29 A practical guide to get you creating powerful mapping applications using the rich set of features provided by the ArcGIS JavaScript APIAbout This Book Unshackle your GIS application from a workstation Get running with three major web mapping projects covering all the important aspects of the ArcGIS JavaScript API Set a strong foundation for the ArcGIS JavaScript API and modular coding with dojo Gain a crystal clear understanding of the ArcGIS JavaScript and become skilled in creating exciting and interesting geospatial apps Who This Book Is ForThis book is for JavaScript developers who wish to develop amazing mapping

applications using the rich set of features provided by the ArcGIS JavaScript API but more than that a spatial frame of mind will help a long way

What You Will Learn Find out what you need to develop a web mapping application in the ArcGIS environment Get to know about the major features provided by the ArcGIS JavaScript API See the coding best practices to develop modular dojo based JavaScript applications Get to grips with writing custom reusable dojo modules using dojo and esri modules and dijit Understand how to use various ArcGIS data sources and other open geospatial data available on the web Discover how to query spatial data and get the best out of your data using analytical techniques Master the art of rendering your map beautifully and create wonderful data visualizations using non map objects such as charts Grasp how to create secure and scalable web maps

In Detail The book starts by explaining the basics of the ArcGIS web mapping ecosystem The book walks you through the development of six major applications covering a wide variety of topics such as querying rendering advanced data visualization and performing map analytics It also emphasizes on writing modular code using pure dojo which is the preferred platform for developing web GIS applications using ArcGIS JavaScript API By the end of the book you will have gained enough practical experience to architect a robust and visually powerful mapping application using the API

Style and approach This is a practical hands on guide on using the ArcGIS JavaScript API to develop mapping applications It is packed with three progressively challenging and diverse projects that explain the plethora of API and dojo topics

Introducing ArcGIS API 4 for JavaScript Rene Rubalcava, 2017-11-28 Learn to use the ArcGIS API 4 for JavaScript to build custom web mapping applications This book teaches you to easily create interactive displays of geographic information that you can use to tell stories and answer questions Version 4 of the ArcGIS API for JavaScript introduces new patterns and fundamental concepts including 3D mapping capabilities You will learn the fundamentals of using the API in order to get the most out of it Covering key concepts and how different components work together you will also learn how to take advantage of the Widget framework built into the API to build your own reusable widgets for your own ArcGIS JSAPI applications Including a series of samples you can use to leverage the API for your own applications

Introducing ArcGIS API 4 for JavaScript helps you take your existing knowledge of JavaScript to a new level and add new features to your app libraries

What You ll Learn Create both 2D and 3D custom web mapping applications Work with popups and custom widgets Leverage the ArcGIS platform in your applications Utilize custom visualizations

Who This Book Is For Developers who need to learn the ArcGIS JSAPI for work or school Those with some JavaScript experience GIS or mapping experience is not required

Beginning ArcGIS for Desktop Development using .NET Pouria Amirian, 2013-03-18 Get the very most out of the ArcGIS for Desktop products through ArcObjects and NET ArcGIS for Desktop is a powerful suite of software tools for creating and using maps compiling analyzing and sharing geographic information using maps and geographic information in applications and managing geographic databases But getting the hang of ArcGIS for Desktop can be a bit tricky even for experienced programmers Core components of ArcGIS platform is called ArcObjects This book first

introduce you the whole ArcGIS platform and the opportunities for development using various programming languages Then it focuses on ArcGIS for Desktop applications and makes you familiar with ArcObjects from NET point of view Whether you are an ArcGIS user with no background in programming or a programmer without experience with the ArcGIS platform this book arms you with everything you need to get going with ArcGIS for Desktop development using NET right away Written by a leading expert in geospatial information system design and development it provides concise step by step guidance illustrated with best practices examples along with plenty of ready to use source code In no time you ll progress from NET programming basics to understanding the full suite of ArcGIS tools and artefacts to customising and building your own commands tools and extensions all the way through application deployment Among other things you ll learn to Object Oriented and Interface based programming in NET C and VB NET Finding relationship between classes and interfaces using object model diagrams Querying data Visualizing geographical data using various rendering Creating various kinds of Desktop Add Ins Performing foreground and background geoprocessing Learn how to improve your productivity with ArcGIS for Desktop and Beginning ArcGIS for Desktop Development Using NET *Building Web and Mobile ArcGIS Server Applications with JavaScript* Eric Pimpler,2014 An easy to follow tutorial this book uses a step by step approach with exercises designed to give you hands on experience with this technology If you are a web or mobile application developer who wants to create GIS applications in your respective platform this book is ideal for you You will need Java Script programming experience to get the most out of this book Although designed as an introductory to intermediate level book it will also be useful for more advanced developers who are new to the topic of developing applications with ArcGIS Server

Mastering ArcGIS Server Development with JavaScript Ken Doman,2015-09-18 Transform maps and raw data into full fledged web mapping applications using the power of the ArcGIS JavaScript API and JavaScript libraries About This Book Create and share modern map applications for desktops tablets and mobile browsers Present and edit geographic and related data through maps charts graphs and more Learn the tools tips and tricks made available through the API and related libraries with examples of real world applications Who This Book Is For This book is intended for intermediate developers who want to design web mapping applications You should have some experience with geographic information systems especially with ArcGIS products such as ArcGIS Server It also helps to have some experience with HTML CSS and JavaScript What You Will Learn Create single page mapping applications lining up data from different sources Search for and display geographic and tabular information based on locations and attributes Customize maps and widgets to deliver the best user experience Present location data intuitively using charts and graphs Integrate mapping applications with your favorite JavaScript frameworks Test the working of your web map application and take advantage of cloud services such as ArcGIS Online Create modern looking web maps through styling tips and tricks In Detail ESRI and its ArcGIS line of software have been an industry leader in digital map production and publication for over 30 years ArcGIS Server lets you design configure

and publish maps that can be viewed and edited through the Internet After designing basic maps you may want to find out new and innovative ways to represent information using these maps In this book you ll work through practical examples experiencing the pitfalls and successes of creating desktop and mobile map applications for a web browser using the ArcGIS Server platform The book begins by introducing you to ArcGIS Server and ESRI s JavaScript API You ll work with your first web map and then move on to learn about ESRI s building blocks A Dojo AMS style widget will help you create your own widgets for a map and then see how to collect geographic data Furthermore you will learn different techniques such as using Dojo Charts to create charts and graphs to represent your data Then you will see how to use ESRI JavaScript API with other JavaScript libraries and different styling methods to make your map stand out By the end of the book you will discover how to make your application compatible with different devices and platforms and test it using testing libraries Style and approach An in depth guide that explores web application development using ArcGIS Server and the ArcGIS JavaScript API Topics are explained in the context of developing two applications for fictional clients Details of application development including possible pitfalls and best practices are included in this book **Building a GIS** Dave Peters,2008 The book s reach is as broad as it is detailed intended both for IT experts just now adopting the technology and for GIS experts just now getting into system design and for the nontechnical executives who need to take advantage of advancements in technology while managing change Jacket Spatial Decision Support Systems Ramanathan Sugumaran,John Degroote,2010-11-15 This book provides a comprehensive examination of the various aspects of SDSS evolution components architecture and implementation Integrating research from a variety of disciplines it supplies a complete overview of SDSS technologies and their application This groundbreaking reference provides thorough coverage of the roots of SDSS It explains the core principles of SDSS how to use them in various decision making contexts and how to design and develop them using readily available enabling technologies and commercial tools

This book delves into Arcgis Web Development. Arcgis Web Development is a crucial topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Arcgis Web Development, encompassing both the fundamentals and more intricate discussions.
