Diane Ghirardo

Architecture After Modernism:

Architecture After Modernism Diane Yvonne Ghirardo, 1996 Since the Modern Movement began to be challenged in the late 1960s architecture has followed a number of widely divergent paths In this thoughtful and eloquent book Diane Ghirardo examines the architectural world of the last quarter century and its theories in the crucial context of social and political issues Within a survey of a broad range of buildings she focuses on specific megaprojects as paradigms for discussion In the realm of public space she argues the key questions are raised by the Disney empire and its amusement parks in domestic space by the IBA in Berlin with projects ranging from new structures to rehabilitation and residents self build When it comes to reconfiguring the urban sphere the megaproject is London s Docklands the most ambitious and politically sensitive development in postwar Britain Her text ranges world wide and she considers the work of lesser known designers and women architects as well as famous international stars *Architecture After Modernism* Diane Ghirardo, 1996

The Ambiguous Legacy of Socialist Modernist Architecture in Central and Eastern Europe Mariusz Sokołowicz, Aleksandra Nowakowska, Błażej Ciarkowski, 2023-04-28 This book examines the unique socialist modernist architecture built in the twentieth century in Central and Eastern Europe as a source of heritage and of existing and potential value for the present and future generations Due to the historical context in which it was created such architecture remains ambiguous On the one hand the wider public associates it with the legacy of the unpleasant period of the real socialist economic regime Yet on the other hand it is also a manifestation of social modernization and the promotion of a significant proportion of the population This book focuses particularly on concrete heritage a legacy of modernist architecture in Central and Eastern Europe and it was this material that enabled their rebuilding after World War II and modernization during the following decades The authors search for the value of modernist architecture and using case studies from Poland Bulgaria Northern Macedonia Lithuania and Slovenia verify to what extent this heritage is embedded in the local socio economic milieu and becomes a basis for creating new values They argue that the challenge is to change the ways we think about heritage from looking at it from the point of view of a single monument to thinking in terms of a place with its own character and identity that builds its relation to history and its embeddedness in the local space Furthermore they propose that the preservation of existing concrete structures and adapting them to modern needs is of great importance for sustainability With increasing awareness of the issue of preserving post war architectural heritage and the strategies of dissonant heritage management this multidisciplinary study will be of interest to architecture historians conservators heritage economists urban planners and architects **Robert A.M. Stern, 1965-1980** Robert A. M. Stern, 1981 **New Architecture and Technology** Gyula Sebestyen, Christopher Pollington, 2007-06-07 Many books have covered the topics of architecture materials and technology New Architecture and Technology is the first to explore the interrelation between these three subjects It illustrates the impact of modern technology and materials on architecture The book explores the technical

progress of building showing how developments both past and present are influenced by design methods It provides a survey of contemporary architecture as affected by construction technology It also explores aspects of building technology within the context of general industrial social and economic developments The reader will acquire a vocabulary covering the entire range of structure types and learn a new approach to understanding the development of design American Architectural History Keith Eggner,2004-07-31 Offering some 30 essays this volume concentrates on recent writings by historians of American architecture urbanism The essays are arranged chronologically from colonial to contemporary accessible in thematic groupings **Southern Vietnamese Modernist Architecture** Mel Schenck,2020-04-21 Southern Vietnamese Modernist Architecture features beautiful architectural photography that illustrates the outstanding accomplishment of the people of southern Vietnam in developing a mid century modernist architecture that is extraordinary in the world Especially for Americans Vietnam has been a war instead of a country The world didn't notice that the Vietnamese were simultaneously constructing modern apartment buildings houses large public buildings and public housing as they developed a new nation And the world didn't anticipate that this architecture would be so overtly modernist rather than an adaption of traditional Vietnamese designs to the continuation of colonial architecture In the mid twentieth century southern Vietnamese architects developed a version of modernist architecture that accommodated the tropical climate and reflected the identity of a newly independent culture It demonstrates the innate sense of design of Vietnamese and it represented the outlook of the people of southern Vietnam as they looked towards the future even in the face of war The vast quantity and quality of Vietnamese modernist buildings constructed throughout southern Vietnam made Vietnam an unrecognized center of modernism in the world Most importantly the southern Vietnamese as a culture embraced modernism and it became the vernacular architecture of the culture for dwellings This architecture features an interplay between masses and voids that provides a much more vibrant version of modernist architecture This style fills the gaps between the functionalism of the International Style and the quest for identity and spirit that has been lacking in modernism worldwide American architect Mel Schenck is a long term immigrant to Vietnam and has been studying this architecture since he was surprised by the extent and quality of modernist architecture in Saigon when he first lived there in 1971-72 He and photographer Alexandre Garel accumulated a database of 400 buildings and 4 000 photographs in southern Vietnam to serve a comprehensive analysis of the history and characteristics of this distinctive architecture Architectural historians aficionados of modernist architecture and anyone interested in Vietnamese culture will find that this book is a positive story about Vietnamese aspirations for independence and the value of modernist architecture in living in the world today **American Architecture** Architecture Urbanism,1981 **A Global History of Architecture** Francis D. K. Ching,Mark M. Jarzombek,Vikramaditya Prakash,2017-04-17 A GLOBAL HISTORY OF ARCHITECTURE NOW FEATURING ADDITIONAL COVERAGE OF CONTEMPORARY GLOBAL ARCHITECTURE AND MORE SUPERB DRAWINGS BY FRANCIS D K CHING The book that

forever changed the way architectural history is viewed taught and studied A Global History of Architecture examines 5 000 years of the built environment Spanning from 3 500 BCE to the present and organized along a global timeline this unique guide was written by experts in their fields who emphasize the connections contrasts and influences of architectural movements throughout history and around the world Fully updated and revised to reflect current scholarship this Third Edition features expanded chapter introductions that set the stage for a global view as well as An expanded section on contemporary global architecture More coverage of non Western cultures particularly South Asia South East Asia Pre Columbian America and Africa New drawings and maps by the iconic Francis D K Ching as well as more stunning photographs An updated companion website with digital learning tools and Google Earth™ mapping service coordinates that make it easier to find sites Art and architecture enthusiasts and anyone interested in architectural history will have 5 000 years of the built environment perpetually at their fingertips with A Global History of Architecture Third Edition

Understanding Architecture Leland M. Roth, Amanda C. Roth Clark, 2024-07-18 The widely acclaimed and beautifully illustrated *Understanding Architecture* is now revised and expanded in its fourth edition vividly examining the structure function history and meaning of architecture from prehistory to the present in ways that are both accessible and engaging Significant features of the fourth edition include Expanded global essays outlining the encounters and interchanges conflicts and accommodations between disparate global communities A brand new final chapter addressing the twenty first century during which Western and global architectural developments have increasingly become one broad interwoven expression This chapter includes sections on CAD Contemporary Architecture of the Twenty First Century Starchitects Contemporary Architectural Prizes Architecture and Energy Consumption and Architecture Integrated with Nature New sections on Frank Lloyd Wright and Late Twentieth Century Expressionism Thoroughly revised and expanded illustration including over 700 images over half of which are in full color and 120 original line art drawings *Understanding Architecture* continues to be the only text in the field to examine architecture as a cultural phenomenon as well as an artistic and technological achievement with its straightforward two part structure The Elements of Architecture and the History and Meaning of Architecture Comprehensive and clearly written *Understanding Architecture* is both a primer for visual environmental literacy and a classic survey of architecture This is an essential book for anyone interested in our built environment and the layered historical meaning embodied within it
