Possessed by the Right Hand Bernard K. Freamon, 2019-05-20 In *Possessed by the Right Hand* the first comprehensive legal history of slavery in Islam ever offered to readers Bernard K. Freamon, an African American Muslim law professor, provides a penetrating analysis of the problems of slavery and slave trading in Islamic history. After examining the issues from pre-Islamic times through to the nineteenth century, Professor Freamon considers the impact of Western abolitionism, arguing that such efforts have been a failure, with the notion of abolition becoming nothing more than a cruel illusion. He closes this ground-breaking account with an examination of the slaving ideologies and actions of ISIS and Boko Haram, asserting that Muslims now have an important and urgent responsibility to achieve true abolition under the aegis of Islamic law. See Bernard Freamon live at Rutgers Law School, October 8, 2019. Listen to *Possessed by the Right Hand*. An Interview with Prof. Bernard Freamon from Network ReOrient on Anchor.

The True History of Planet Earth and its Aliens Raymond Lamarr, 2022-05-23 In this book, the author has looked at and studied during his lifetime the many theories and beliefs of the creation of Earth, our solar system, the universe, and everything in it, including all the organics: plants, animals, humans, extraterrestrials, spiritual, and other realms of existence. Included in this book are the studies of extraterrestrials that have been listed in five different categories and their influence on Earth throughout history from the ancient past to the present day. The author speaks at length on the prevailing beliefs and theories of evolution, religious, and ancient histories, and the ancient astronaut theorists. Included is a study of the laws of creation and life, which is truth and reality throughout the entire universe. He also speaks of the beliefs of other sects in the world today and throughout all of world history. He tells of the four different tragedies that happened in the world and our solar system in the last six thousand years: the who, how, why, and when of them. He lists the interpretations of history and prophecies that came to light and were reported in the 1950s and 1960s that seem to have been pretty much forgotten. He brings to light the misinterpretations and mistranslations of biblical history and the great many histories of the world, including the many histories of the Americas.

Unveiling the Messiah in the Dead Sea Scrolls Margaret S. King, 2012-01-20 The author is convinced that the early Byzantine Church deliberately cut out sections from an historic text to conceal the truth about the crucifixion of a man they were promoting as their Messiah. She solves the mystery by reconstructing the deleted sections, King pieces together what happened in Jerusalem during the trial and attempted crucifixion of the real Messiah and shows that the key passages that were tampered with are actually the missing link that connects the Dead Sea Scrolls to the New Testament Gospels. Using those passages and the history of the period, she identifies the figures mentioned in the Dead Sea Scrolls.
