University Laboratory Preschools James Elicker,Nancy Barbour,2016-01-29 This volume is a collection of articles that showcase new research that is emerging from

laboratory schools guided by principles of applied developmental science In the 1920 s new university laboratory preschools ushered in a modern era of child development research Campus preschools with a research mission were home to seminal studies of children s play and age related changes in children s abilities They produced data about normative child development along with evidence based practical advice for teachers and parents Now nearly 100 years later lab schools are still thriving in many colleges and universities as centers of research education and care for young children support for families and practical education for students and teachers of young children However with tightening higher education budgets and changing research agendas many lab schools are struggling to focus and balance these research education and service missions The chapter authors illustrate a variety of ways that faculty and laboratory school early childhood educators are collaborating to do research to address critical issues in the early childhood field including the preparation of the next generation of early childhood professionals This book was originally published as a special issue of Early Education and Development

Teaching Learners Who Struggle with Mathematics Helene J. Sherman, Lloyd I. Richardson, George J. Yard, 2019-03-07 Highly regarded by instructors in past editions for its sequencing of topics and extensive set of exercises the latest edition of Abstract Algebra retains its concrete approach with its gentle introduction to basic background material and its gradual increase in the level of sophistication as the student progresses through the book Abstract concepts are introduced only after a careful study of important examples Beachy and Blair s clear narrative presentation responds to the needs of inexperienced students who stumble over proof writing who understand definitions and theorems but cannot do the problems and who want more examples that tie into their previous experience The authors introduce chapters by indicating why the material is important and at the same time relating the new material to things from the student s background and linking the subject matter of the chapter to the broader picture Building proficiency in learning mathematics by tailoring instruction to students specific misconceptions and learning needs is the backbone of this indispensable text written for K 8 pre and inservice teachers as well tutors An important theme is that long term retention is based on a strong conceptual foundation of numeracy and on a well designed learning environment Each chapter deals with a different mathematics topic including whole numbers fractions decimals as well as time and money Chapters also include examples of error patterns and specific well defined strategies and activities for diagnosis prescription and remediation New to this edition is a chapter devoted to English language learners The complexities of language barriers are delineated along with reasons that students struggle with learning English and mathematics at the same time An audio file of common mathematics terms translated from English into most often spoken languages by ELLs can be accessed at www.youareamathperson.com Outstanding features Response to Intervention RTI model underpins discussions of differentiating instruction Mathematics content reflects components of the Common Core State Standards Initiative for Mathematics and the National Council of Teachers of Mathematics Principles and Standards for School Mathematics Case studies and student examples promote a sound

understanding of learners varied cognitive behavioral and physical needs Discussion questions challenge readers to think more deeply about the application and utility of concepts related to the error patterns Step by step directions for interactive instructional classroom games and activities are provided to extend and enrich teaching and learning
