The Anxious City Richard J. Williams, 2004 A unique and provocative history of the development of the idea of the city in recent years Key public spaces and buildings in England Europe and the USA are discussed in relation to their socio political context *Memory and Architecture* Eleni Bastéa, 2004 An international study of cultural relationships with built environments

Phenomenology of Anxiety Stefano Micali, 2022-03-30 This volume offers a thorough description of anxiety from a phenomenological perspective Building on Bakhtin's insights the author develops the method of phenomenological polyphony which can do justice to the essential ambiguity of anxiety In this polyphony the voices of Kierkegaard Husserl Freud Blumenberg Heidegger Sartre Adorno Derrida and Levinas are particularly recognizable The book explores new perspectives on the complex relation between anxiety fear and trauma with reference to different disciplines from art history to cultural anthropology from psychopathology to theology from literature to political philosophy When is anxiety justified When does anxiety cease to function as an effective and reasonable signal preventing imminent threats and when does it become an invasive projection of our own ghosts This volume presents a deep philosophical inquiry into the affective phenomenon that can both protect us from danger and be a danger in itself Moreover the author explores the relevance of anxiety in the context of philosophical anthropology In various theoretical frameworks the difference between anxiety and fear serves as a criterion for distinguishing human beings from animals in particular Accordingly research on anxiety is crucial for defining human nature as such The analysis presented in this volume shows how an alteration of the dimensions of embodiment time consciousness and phantasy takes place in anxiety Furthermore the author elaborates on new categories for understanding of anxiety such as quasi intentional imaginative anticipation which eludes the traditional differentiation between perception and imagination The work culminates in a phenomenological analysis of five essential traits of anxiety 1 its quasi intentional imaginative anticipation 2 its negative inspiration 3 the recurrence of bodily manifestations 4 the interlocution with an alien power 5 its negative teleology

City Status in the British Isles, 1830-2002 John Beckett, 2017-07-05 Based on a wide variety of government and civic records this book traces the evolution of the changing nature of city status particularly through the nineteenth and twentieth centuries Beginning with an explanation of how city status first became connected to cathedrals in the medieval period the book explores how during the nineteenth century links evolved between Anglican diocesan sub divisions and city creation It then shows how in a few years between 1888 and 1907 the traditional interpretation of a city was overturned as the most major British industrial and commercial towns received city status and lord mayoralties The second half of the book concentrates on city status during the twentieth century and particularly the politicisation of the process and the linking of grants to royal occasions The study concludes by looking at the city status competitions of 2000 and 2002 in relation to the previous two hundred years of city history

Bradshaw's Through Routes to the Chief Cities, and Bathing, and Health Resorts of the World Eustace Alfred Reynolds-Ball,1913

Borders and Boundaries in and around Dutch Jewish History David Wertheim,Judith Frishman,Ido Haan,Joel Cahen,2025-10-01 The widespread and long held preconception that all Jews lived in ghettos and were relentlessly subject to discrimination prior to the Enlightenment has only slowly eroded Geographically speaking Jews rarely lived in ghettos and have never been confined within the borders of one nation or country Power struggles and wars often led to the creation of new national borders that divided communities once united But if identity formation is subject to change and negotiation it does not depend solely on shifting geographical borders A variety of boundaries were and are still being constructed and maintained between ethnic and other collective identities The contributors to this book like other post modernist historians turn their gaze to a wide range of identities once taken for granted identities located on the border lines between one country and the next between Jews and non Jews as well as on those between one group of Jews and another
