Notes

This simple notes guide does not ask you to answer a bunch of questions as you read. Instead, it asks you to **THINK** about what you read and record your own individual thoughts. There are three parts to this guide: 1. Your thoughts (moment types are below) as you read, 2. Character charts to note information about each character, 3. History Timeline to chart the connections between the story and Russian history. Complete the Notes as you read and at the end of every chapter work on the character charts and the timeline.

Comment Types:

- Predict: What do you think will happen next?
- Visualize: Describe the picture created in your mind.
- Question: Ask a thoughtful question/then try to answer it.
- Connect: Make a connection to your life.
- Clarify: Summarize what just happened.
- Evaluate: Is what just happened believable or not? Effective or not?

topics allowing students to hear a variety of voices and opinions Includes an applications section for each reading that extends the discussion and asks students to explore problems and grapple with important issues related to the articles Offers short writing assignments in questions that follow the readings and in brief writing tasks in the applications and a longer writing assignment at the end of each chapter Addresses student readers directly without talking down to them New in the Second Edition This edition is shorter tighter and easier to use The opening and concluding chapters more directly address the concerns of new teachers The anthology is substantially updated of the 22 articles included 14 are new to this edition Each essay is preceded by a brief introduction and followed by questions for further thought There are fewer applications but these are more extensive and more fully integrated within the text A writing assignment is provided at the end of each chapter Interviews with college students before and after student teaching are included in Chapters 1 and 6 The bibliographies at the end of each chapter are fully updated
