Abraham, Lacap, Jr., Eduardo M., Sajath, Ibrahim, Kumar, M. Kamal, Kolamban, Shajidmon, 2022-10-21 Communicable diseases have been an important part of human history. Epidemics afflicted populations causing many deaths before gradually fading away and emerging again years later. Epidemics of infectious diseases are occurring more often and spreading faster and further than ever in many different regions of the world. The scientific community, in addition to its accelerated efforts to develop an effective treatment and vaccination, is also playing an important role in advising policymakers on possible non-pharmacological approaches to limit the catastrophic impact of epidemics using mathematical and machine learning models. Controlling Epidemics With Mathematical and Machine Learning Models provides mathematical and machine learning models for epidemical diseases with special attention given to the COVID-19 pandemic. It gives mathematical proof of the stability and size of diseases. Covering topics such as compartmental models, reproduction number, and SIR model simulation, this premier reference source is an essential resource for statisticians, government officials, health professionals, epidemiologists, sociologists, students, and educators of higher education, librarians, researchers, and academicians.

Transformation for Sustainable Business and Management Practices Aarti Saini, Vikas Garg, 2023-02-17 Since the introduction of Industry 5.0, there has been a greater emphasis on the human-centric view in human-machine collaboration. As society has benefitted from technological advancements in all aspects of industrial sectors, there has been a rethinking of the role human beings should play in future evolutions. English For Engineering Students, 2E Veena Selvam, 2009-11-01. Language, unlike other engineering subjects, is more a skill that has to be practiced constantly. With this in mind, English for Engineering Students has been written to help building engineers use technical English appropriately in all situations. The objective of this book is to facilitate the practice of the four major study skills: Listening, Speaking, Reading, and Writing, along with their sub-skills. The book is divided into 4 units of 3 chapters each. Each unit is accompanied by a revision exercise. At the end of the book are the supplementary tasks along with keys, an appendix of phonetic symbols and their use, and a model question paper.
