The Genesis of Germs Alan Gillen, 2007-01-01 As the world waits in fear the CDC and world health organizations race to minimize the current pandemic a looming threat that has forced international federal and local governments to deal with COVID19 and other future epidemics and the widespread death and devastation which would follow Will the world find the answers in time Or will we see a deadly threat ravage populations as others have before in 1918 with influenza in the late 18th century with yellow fever or the horrific black death or bubonic plague in 1347 AD Are these viruses examples of evolution Did God make microbes by mistake Are they accidents of evolution out of the primordial soup These timely questions are examined throughout this book from chapter 1 It seems that a new and more terrible disease is touted on the news almost daily The spread of these scary diseases from avian flu to SARS to AIDS is a cause for concern and leads to questions such as Where did all these germs come from How do they fit into a biblical world view What kind of function did these microbes have before the Fall Does antibiotic resistance in bacteria prove evolution How can something so small have such a huge deadly impact on the world around us Professor Alan Gillen sheds light on these and many other questions in this revealing and detailed book He shows how these constantly mutating diseases are proof for devolution rather than evolution and how all of these germs fit into a biblical world view Dr Gillen shows how germs are symptomatic of the literal Fall and Curse of creation as a result of man's sin and the hope we have in the coming of Jesus Christ *The Conflict of the Ages Teacher Edition I The Scientific History of Origins* Michael J. Creationism and Anti-Creationism in the United States Tom Kaden, 2018-09-20 This book deals with professional creationist and anti creationist organizations in America and describes how the conflict between science and religion is the result of the interaction between these two groups It retraces their history from the 1960s onwards and identifies crucial turning points that led to new forms of creationism and anti creationism It explains their strategies labels and arguments as effects of this history and structure Taking a field theoretical approach the book avoids problems of prior creationism

research making it possible to identify the mechanisms through which creationism generates new strategies arguments and media output The field model is used as an interpretive tool to make sense of some of the most important creationist and anti creationist publications and media statements Already Compromised Ken Ham, Greg Hall, Britt Beemer, 2011 Parents and students sacrifice large sums of money for a Christian college education Why They are purchasing a guarantee their child's faith in God and the Bible will be guarded and developed But is the Bible being taught Will they graduate believing in the inerrancy of Scripture the Flood of Noah's Day and a literal six day creation Apologetics powerhouse Ken Ham and Dr Greg Hall reveal an eye opening assessment of 200 Christian colleges and universities In an unprecedented 2010 study by America Research Group college presidents religion and science department heads were polled on critical areas of Scripture and core faith questions **The Conflict of the Ages Student Edition I: the Scientific History of Origins** Michael J.

Findley, Mary C. Findley, The worldwide Flood is one of the most discounted records in the Scriptures Yet it is supported around the world by historical accounts Take a look at feasibility studies on the safety and the stocking of the Ark The Geologic Column ought to prove that fossils reveal the age of the earth They show progression from simple to complex organisms over millions of years But do they Take a look at living fossils Meet the extinct creature found only in the oldest layers but more complex than later life forms Consider the real conditions that surrounded the Flood and the Ice Age **Already Gone** Ken Ham, Britt Beemer, 2009-05-01 Over 100 000 copies in print If you look around in your church today two thirds of the young people who are sitting among us have already left in their hearts soon they will be gone for good This is the alarming conclusion from a study Answers in Genesis commissioned from America's Research Group led by respected researcher Britt Beemer The results may unnerve you they may shake long held assumptions to the core but these results need to be taken seriously by the church Already Gone reveals Why America's churches have lost an entire generation of believers The views of 1 000 twenty somethings solidly raised in the church but no longer attending and their reasons why Relevant statistical data effectively teamed with powerful apologetics The study found that we are losing our kids in elementary middle school and high school rather than college and the Sunday school syndrome is contributing to the epidemic rather than helping alleviate it This is an alarming wake up call for the church showing how our programs and our approaches to Christian education are failing and our children are paying the price Though the statistics reveal a huge

disconnect taking place between our children and their church experience Already Gone shows how to fight back for our families our churches and our world We can make a difference today that will affect the statistics of tomorrow in a positive and Christ focused way The History Puzzle Susan Provost Beller,2006-01-01 Nineteen stories piecing together different

Revised Edition Joel Edmund Anderson,2024-11-07 One of the most controversial issues in our society today especially within Evangelicalism is that of the creation evolution debate Over the past few decades Fundamentalist apologists like Ken Ham of the young earth creationist organization Answers in Genesis have made a career convincing people that the age of the Earth and the historicity of Genesis 1 11 are not just bedrock fundamental tenets of the Christian faith but are also crucial fronts in the culture war In The Heresy of Ham Joel Edmund Anderson convincingly shows that not only are the YECist claims of Ken Ham unbiblical and unscientific but they have sowed the seeds of strife and division within countless Christian communities He should know he lost his job as a biblical worldview teacher at a small Evangelical school over the issue of YECism Anderson s ultimate message is simple regardless of your position regarding evolution or the interpretation of Genesis 1 11 they are not fundamental to the Christian faith and should not be used as battlefronts in the culture war If you have always had questions about the creation evolution debate the claims of YECism and the way Genesis 1 11 should be

Discerning Truth Dr. Jason Lisle, 2010-08-01 Every day Christians are faced with an increasing onslaught of criticism from evolutionists for their belief in God and His glorious creation. What do you say when your faith is challenged by those claiming to speak in the name of science or reason? *Discerning Truth* provides a practical and engaging resource on the use of logic in this critical debate. Filled with anecdotes from both creative examples and real life illustrations that help clarify logical issues in apologetics. Become skilled at distinguishing sound arguments from emotionally charged rhetoric. Helps any believer refute evolutionary perspectives. Lisle believes that creationists need to be able to recognize and refute evolutionist arguments and to do so in a way that both honors God and lines up with the truth of His Word. Eph 5:1 The role of logic the study of correct reasoning is becoming a vanishing skill in our society. Yet it is a vital tool in assisting Christians in assessing the weaknesses in evolutionary thought.
