Lines in the Water Ben Orlove, 2002-06-13 This beautifully written book weaves reflections on anthropological fieldwork together with evocative meditations on a spectacular landscape as it takes us to the remote indigenous villages on the shore of Lake Titicaca high in the Peruvian Andes Ben Orlove brings alive the fishermen reed cutters boat builders and families of this isolated region and describes the role that Lake Titicaca has played in their culture He describes the landscapes and rhythms of life in the Andean highlands as he considers the intrusions of modern technology and economic demands in the region *Lines in the Water* tells a local version of events that are taking place around the world but with an unusual outcome people here have found ways to maintain their cultural

autonomy and to protect their fragile mountain environment The Peruvian highlanders have confronted the pressures of modern culture with remarkable vitality They use improved boats and gear and sell fish to new markets but have fiercely opposed efforts to strip them of their indigenous traditions They have retained their customary practice of limiting the amount of fishing and have continued to pass cultural knowledge from one generation to the next practices that have prevented the ecological crises that have followed commercialization of small scale fisheries around the world This book at once a memoir and an ethnography is a personal and compelling account of a research experience as well as an elegantly written treatise on themes of global importance Above all Orlove reminds us that human relations with the environment though constantly changing can be sustainable

Out of the Mainstream Rutgerd Boelens, David Getches, Armando Guevara-Gil, 2010-02-26 Water is not only a source of life and culture It is also a source of power conflicting interests and identity battles Rights to materially access culturally organize and politically control water resources are poorly understood by mainstream scientific approaches and hardly addressed by current normative frameworks These issues become even more challenging when law and policy makers and dominant power groups try to grasp contain and handle them in multicultural societies The struggles over the uses meanings and appropriation of water are especially well illustrated in Andean communities and local water systems of Peru Chile Ecuador and Bolivia as well as in Native American communities in south western USA The problem is that throughout history these nation states have attempted to civilize and bring into the mainstream the different cultures and peoples within their borders instead of understanding context and harnessing the strengths and potentials of diversity This book examines the multi scale struggles

for cultural justice and socio economic re distribution that arise as Latin American communities and user federations seek access to water resources and decision making power regarding their control and management It is set in the dynamic context of unequal globalizing power relations politics of scale and identity environmental encroachment and the increasing presence of extractive industries that are creating additional pressures on local livelihoods While much of the focus of the book is on the Andean Region a number of comparative chapters are also included These address issues such as water rights and defence strategies in neighbouring countries and those of Native American people in the southern USA as well as state reform and multi culturalism across Latin and Native America and the use of international standards in struggles for indigenous water rights This book shows that against all odds people are actively contesting neoliberal globalization and water power plays In doing so they construct new hybrid water rights systems livelihoods cultures and hydro political networks and dynamically challenge the mainstream powers and politics

Food, Power, and Resistance in the Andes Alison Krögel, 2010-12-16 *Food Power and Resistance in the Andes* is a dynamic interdisciplinary study of how food s symbolic and pragmatic meanings influence access to power and the possibility of resistance in the Andes In the Andes cooking often provides Quechua women with a discursive space for achieving economic self reliance creative expression and for maintaining socio cultural identities and practices This book explores the ways in which artistic representations of food and cooks often convey subversive meanings that resist attempts to locate indigenous Andeans and Quechua women in particular at the margins of power In addition to providing an introduction to the meanings and symbolisms associated with various Andean foods this book also includes the literary analysis of Andean poetry and prose as well as several Quechua oral narratives collected and translated by the author during fieldwork carried out over a period of several years in the southern Peruvian Andes By following the thematic thread of artistic representations of food this book allows readers to explore a variety of Andean art forms created in both colonial and contemporary contexts In genres such as the novel Quechua oral narrative historical chronicle testimonies photography painting and film artists represent Quechua cooks who utilize their access to food preparation and distribution as a tactic for evading the attempts of a patriarchal hegemony to silence their voices desires values and cultural expressions Whether presented orally visually or in a print medium each of these narratives represents food and cooking as a site where conflict ensues symbolic meanings are negotiated and identities are re constructed *Food Power and Resistance* will be of interest to Andean Studies and Food Studies scholars and to students of Anthropology and Latin American Studies

Nightwatch Orin Starn, 1999-05-24 Organized in the mid 1970s as a means of communal protection against livestock rustling and general thievery in Peru s rugged northern mountains the rondas campesinas peasants who make the rounds grew into an entire system of peasant justice and one of the most significant Andean social movements of the late twentieth century *Nightwatch* is the first full length ethnography and the only study in English to examine this grassroots agrarian social movement which became a rallying point for rural pride Drawing on

fieldwork conducted over the course of a decade Orin Starn chronicles the historical conditions that led to the formation of the rondas the social and geographical expansion of the movement and its gradual decline in the 1990s Throughout this anecdotal yet deeply analytical account the author relies on interviews with ronda participants villagers and Peru's regional and national leaders to explore the role of women the involvement of nongovernmental organizations and struggles for leadership within the rondas Starn moves easily from global to local contexts and from the fifteenth to the twentieth century presenting this movement in a straightforward manner that makes it accessible to both specialists and nonspecialists An engagingly written story of village mobilization *Nightwatch* is also a meditation on the nature of fieldwork the representation of subaltern people the relationship between resistance and power and what it means to be politically active at the end of the century It will appeal widely to scholars and students of anthropology Latin American studies cultural studies history subaltern studies and those interested in the politics of social movements *Indigenous Religions* Ann Marie B. Bahr, Dr Ann Marie B Bahr, 2009 Presents an overview of indigenous religions of Africa Australia India Arctic regions Mexico and others

Land Without Masters Anna Cant, 2021-04-20 A fresh perspective on the way the Peruvian government's major 1969 agrarian reforms transformed the social cultural and political landscape of the country **Fifty Years of Good Reading** University of Texas Press, 2000 50 year since founding the University of Texas they have witnessed major evolutions in the world of publishing **Between Field and Cooking Pot** Florence E. Babb, 2010-06-04 From reviews of the first edition *Between Field and Cooking Pot* offers details of the daily lives of marketwomen in the central Andean departmental capital of Huaraz A welcome addition to studies of women and international development this book contains a wealth of firsthand material collected through informal participant observation as well as formal interviews and analysis of statistical data The book encourages us to imagine how the dynamic culture of marketwomen might intersect with the construction representation and effects of class and gender American Anthropologist The book has a clear and readable style moving easily between vignettes of marketwomen's lives descriptions of the markets themselves and surveys of the theoretical literature Babb's long close involvement with the Huaraz markets is apparent As someone who has spent a lot of time in Andean markets I found the book pleasurable to read because it recreated the experience of the marketplace so well American Ethnologist This revised edition of *Between Field and Cooking Pot* offers an updated appraisal of what neoliberal politics and economics mean in the lives of marketwomen in the nineties based on new fieldwork conducted in 1997 Babb also reflects on how recent currents in feminist and anthropological studies have caused her to rethink some aspects of Andean marketers in Peruvian culture and society
