Applegate,2017-07-25 The Yeerks have decided to try a little experiment They ve decided that if they can develop a way to make people more willing to be infested they can speed up Earth s invasion So the Yeerks try to invent a substance that will take away the human ability to make a decision A substance that will eliminate free will Now the Animorphs are not only faced with trying to slow down the Yeerks invasion but they also have to put an end to the genetic testing on a small group of humans This time there s only one chance to stop the Yeerks And if anything goes wrong it s all over *The Diversion (Animorphs #49)* K. A. Applegate,2017-09-26 The Yeerks are finally starting to realize that the Andalite bandits are probably not aliens at all That maybe they ve been dealing with humans all along And no one especially the newly appointed Visser One is happy about this revelation When Tobias and the other Animorphs realize that the Yeerks are about to find them it s by accident But that doesn t make the discovery any less serious Because in a war one side wins and one side loses **The Threat (Animorphs #21)** K. A. Applegate,2017-07-25 There is a new Animorph And he s arrived just in time because the Yeerks are preparing their biggest takeover ever Their ultimate target the world s most powerful leaders all gathered together in one place What better way to get into the minds of humans Literally At first David joins the fight with a vengeance But there s definitely something wrong Because he s starting to break the rules taking risks that could get them all captured Or killed The Animorphs don t know what to do There was a time when the Yeerks were their greatest enemy but that s about to change **Popular Series Fiction for K-6 Readers** Rebecca L. approach to post Darwinian narratives concerned with animals and human animal relationships Herman considers the enabling and constraining effects of different narrative media examining a range of fictional and nonfictional texts disseminated in print comics and graphic novels and film In focusing on techniques such as the use of animal narrators alternation between human and nonhuman perspectives the embedding of stories within stories and others the book explores how specific strategies for portraying nonhuman agents both emerge from and contribute to broader attitudes toward animal life Herman argues that existing frameworks for narrative inquiry must be modified to take into account how stories are interwoven with cultural ontologies or understandings of what sorts of beings populate the world and how they relate to humans Showing how questions of narrative bear on ideas of species difference and assumptions about animal minds Narratology beyond the Human underscores our inextricable interconnectedness with other forms of creatural life and suggests that stories can be used to resituate imaginaries of human action in a more than human world **Canadian Who's**
