Rethinking World History Marshall G. S. Hodgson, 1993-05-28 Is the history of the modern world the history of Europe writ large Or is it possible to situate the history of modernity as a world historical process apart from its origins in Western Europe In this posthumous collection of essays Marshall G S Hodgson challenges adherents of both Eurocentrism and multiculturalism to rethink the place of Europe in world history He argues that the line that connects Ancient Greeks to the Renaissance to modern times is an optical illusion and that a global and Asia centred history can better locate the European experience in the shared histories of humanity Hodgson then shifts the historical focus and in a parallel move seeks to locate the history of Islamic civilisation in a world historical framework In so doing he concludes that there is but one history global history and that all partial or privileged accounts must necessarily be resituated in a world historical context The book also includes an introduction by the editor Edmund Burke contextualising Hodgson's work in world history

Core Questions in Philosophy Elliott Sober, 2021-05-26 Writttten in an engaging lecture style format this 8th edition of Core Questions in Philosophy shows students how philosophy is best used to evaluate many different kinds of arguments and to construct sound theories Well known historical texts are discussed not as a means to honor the dead or merely to describe what various philosophers have thought but to engage with criticize and even improve ideas from the past In addition because philosophy cannot function apart from its engagement with the wider society traditional and contemporary philosophical problems are brought into dialogue with the physical biological and social sciences Text boxes highlight key concepts and review questions discussion questions and a glossary of terms are also included Core Questions in Philosophy has served as a premier introductory textbook for three decades with updates to each new edition Key updates to this 8th edition include A new chapter Probability and Bayes Theorem A new explanation of the concept of soundness as a useful tool in assessing arguments A clearer explanation in the chapter on evolution of the crucial biological idea that the similarities of different species provide evidence of their common ancestry A new discussion of evolutionary altruism in the chapter on psychological egoism A presentation of two interesting arguments from historically important Islamic and Confusian philosophers Improved clarity and updated material from philosophy and empirical research throughout Revisions to the online list of recommended resources include Additional recommendations of supplementary readings with the inclusion of more work from female philosophers New recommended videos and podcasts all organized by their relevance to

each chapter in the book **Lessons for the Social Studies Classroom** M. Lazarus, S. Cohen, K. Lambert, R. E, 2013-03-12 The idea for this book came while I was observing a student teacher and a master teacher I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons I also noticed that teachers new to the field of teaching suffer the same fate they are too busy trying to survive the day and are not sure how to plan and organize their teaching Lesson plans are one of the most important tools for a teacher and more important for the novice teacher I believe that during student teaching or during their undergraduate years if students were equipped with this book their first year teaching will not look so first year Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans improving upon them and making them their own Most first year teachers over teach or under teach and both types still miss the marks on the standardized test These lesson plans will give the new teacher a place to begin **1982 World History Teaching Conference** Joe C.
