

NEWTON'S LAWS OF MOTION

Directions: Write the correct letter for each scenario. Write a short explanation for your choice of Newton's laws.

Scenario	Newton's Law	Explanation
A book resting on a table.	A. First Law of Motion	An object remains at rest until acted upon by an outside force.
Pushing a shopping cart.	B. Second Law of Motion ($F = ma$)	Force is related to the mass in the shopping cart and how fast it moves.
Walking on the ground.	C. Third Law of Motion	Your foot pushes backward on the ground. The ground exerts an equal and opposite force forward, allowing you to move forward.
A moving car coming to a stop.	A. First Law of Motion	Bodies in motion continue in motion (inertia) until acted upon by an external force.
Acceleration of a car.	B. Second Law of Motion ($a = F / m$)	The greater the force used, the faster the car accelerates. A heavier car will need more force.
Throwing a ball.	C. Third Law of Motion	When you throw a ball, your hand exerts a force on the ball in one direction, and the ball exerts an equal but opposite force on your hand in the opposite direction.

Brown, J. Mittelstrass, 2012-12-06 The best philosophy of science during the last generation has been highly historical and the best history of science highly philosophical No one has better exemplified this intimate relationship between history and philosophy than has Robert E Butts in his work Through out his numerous writings science its philosophy and its history have been treated as a seamless web The result has been a body of

work that is sensitive in its conception ambitious in its scope and illuminating in its execution Not only has his work opened new paths of inquiry but his enthusiasm for the discipline his encouragement of others particularly students and younger colleagues and his tireless efforts to build an international community of scholars have stimulated the growth of HPS throughout Europe and North America Many of the essays in this volume reflect that influence Our title of course is deliberately ambiguous The essays herein are by colleagues and former students all of us wishing to honour an intimate friend Happy Birthday Bob IX INTRODUCTION The essays herein cover a variety of concerns from Descartes to reduction from Galileo to gambling from Freud's psychoanalysis to Kant's thing in itself But under this diversity there is an approach common to them all Things are largely done with a concern for and a sensitivity to historical matters including contemporary history of course

Progressing Science Education Keith S. Taber, 2009-05-29 Exploring one of the central themes in science education theory this volume examines how science education can be considered as a scientific activity within a broad post positivist notion of science Many students find learning science extremely problematic whatever level of education they have reached At the end of the 1970s a new approach to tackling learning difficulties in science was developed drawing on ideas from psychology and cognitive science and centred on the way students build up new knowledge in reference to their existing ideas Constructivism became the dominant paradigm in science education research for two decades spawning a vast body of literature reporting aspects of learners ideas in different science topics However Constructivism came under fire as it was recognised that the research did not offer immediate and simple prescriptions for effective science teaching The whole approach was widely criticised in particular by those who saw it as having anti science leanings In this book the notion of scientific research programmes is used to understand the development limitations and potential of constructivism It is shown that constructivist work in science education fits into a coherent programme exploring the contingencies of learning science The author goes further to address criticisms of constructivism evaluate progress in the field and suggest directions for future research It is concluded that constructivism has provided the foundations for a progressive research programme that continues to guide enquiry into learning and teaching science
