England, Nuria Gonzalez Oliver, Angela Uribe de Kellett, 2009-07-09 An ideal linguistic and cultural preparation for anyone planning to study Spanish abroad covering culture society education young people work and health **Let's Make Some Noise** Clarence Bernard Henry, 2010-02-17 Clarence Bernard Henry's book is a culmination of several years of field research on sacred and secular influences of the West African Yoruba concept that spread to Brazil and throughout the African Diaspora. It is imagined as power and creative energy bestowed upon human beings by ancestral spirits acting as guardians. In Brazil the West African Yoruba concept of *axé* is known as *axé* and has been reinvented, transmitted and nurtured in Candomblé, an Afro-Brazilian religion that is practiced in Salvador Bahia. The author examines how the concepts of *axé* and Candomblé religion have been appropriated and reinvented in Brazilian popular music and culture. Featuring interviews with practitioners and local musicians, the book explains how many Brazilian popular music styles such as samba, bossa nova, samba reggae, ijex and *axé* have musical and stylistic elements that stem from Afro-Brazilian religion. The book also discusses how young Afro-Brazilians combine Candomblé religious music with African American music such as blues, jazz, gospel, soul, funk and rap. Henry argues for the importance of *axé* as a unifying force tying together the secular and sacred Afro-Brazilian musical landscape. **The Contradictions of Science in Machado de Assis** Viviane Carvalho da Anunciação, 2025-09-12 This book explores the role of science in the short stories of Machado de Assis, focusing on works such as *O Alienista* (1882), *A Sereníssima República* (1882) and *Idéias de Canário* (1899). It examines how Machado uses scientific theories as literary and sociological devices to critique modern state institutions, including hospitals, prisons, and government-sponsored medical projects. His scepticism extends to the liberal and politically independent scientific discourse of late nineteenth-century Brazil, a period of profound political, economic, and social change. By questioning the idealized figure of the rational scientist, Machado exposes the racial and economic hierarchies upheld by the dominant intelligentsia. Madness, egocentrism, and the use of fantastic elements such as talking animals and absurd situations engage with the ancient tradition of the fable to highlight social tensions. The result is an ethically charged poetics of unreason, shaped by an ironic scepticism toward Romantic nationalism, literary naturalism, and scientific positivism, particularly in relation to race, gender, class, and nationality. Perfect for scholars of literature, history, and cultural studies, this book reinterprets Machado de Assis as a radical thinker whose fiction offers a penetrating critique of race, gender, and class in the making of modern Brazil. It can also serve as an initial study for many interdisciplinary interpretations of his work, opening new perspectives on his engagement with science and politics. **Omnia in Eo** Irene E. Zwiép, 2006 In 2005 the Bibliotheca Rosenthaliana celebrated its 125th year as part of the University Library of the University of Amsterdam. Several events were held to mark this anniversary, including lectures and an exhibition. In this volume the history of the library is examined further with new and incisive articles on the life and work of many of its leading figures and an analysis of part of Leeser Rosenthal's original collection. In addition, new material is presented regarding the fate of the library during the Second World War. A year earlier, in 2004, Adri Offenbergh retired as

curator of the Bibliotheca Rosenthaliana. Alongside a review of his work at the library, this volume provides a complete bibliography of all his published work until 2006 and what has become known in English as a festschrift, a collection of studies in his honour by Dutch and international colleagues and fellow bibliophiles about items in the library collection as well as topics relating to Jewish booklore unconnected with the library. This volume is a tribute to Adri Offenberg, the curator but above all to Adri Offenberg, the groundbreaking researcher.

Fruteros Rocío Rosales, 2020-05-19. This book examines the social worlds of young Latino street vendors as they navigate the complexities of local and federal laws prohibiting both their presence and their work on street corners. Known as fruteros, they sell fruit salads out of pushcarts throughout Los Angeles and are part of the urban landscape. Drawing on six years of fieldwork, Rocío Rosales offers a compelling portrait of their day-to-day struggles. In the process, she examines how their paisano hometown compatriot social networks both help and exploit them. Much of the work on newly arrived Latino immigrants focuses on the ways in which their social networks allow them to survive. Rosales argues that this understanding of ethnic community simplifies the complicated ways in which social networks and social capital work. *Fruteros* sheds light on those complexities and offers the concept of the ethnic cage to explain both the promise and pain of community.

competing voices collided Ultimately through multiple means including choosing to exclude artworks with readily decipherable political messages and evading references to contemporary inter American frictions the U S curators who organized these shows crafted projections of Pan American partnership and harmony with the United States as leader interpreter and good neighbor during an era of brutal U S interference across the Americas Theoretically sophisticated and highly original this survey of Cold War era Latin American art exhibits sheds light on the midcentury history of major U S art museums and makes an important contribution to the fields of museum studies art history and Latin American modernist art
