House of Commons - Committee of Public Accounts: Emergency Admissions to Hospital - HC 885 Great Britain: Parliament: House of Commons: Committee of Public Accounts,Margaret Hodge,2014-03-04 Nearly one fifth of consultant posts in emergency departments were either vacant or filled by locums in 2012 Neither the Department nor NHS England have a clear strategy to tackle the shortage of A E consultants and there is too much reliance on temporary staff to fill gaps The Committee raised the possibility of paying consultants more to work at struggling hospitals Greater use in A E of consultants from other departments could also be made or mandate that all trainee consultants spend time in A E or make A E positions more attractive through improved terms and conditions The slow introduction of round the clock consultant cover in hospitals which will not be in place before the end of 2016 17 is also having a negative impact More people die as a result of being admitted at the weekend when fewer consultants are in A E Changing this relies on the British Medical Association and NHS Employers negotiating a more flexible consultants contract and neither the Department nor NHS England has direct control over the timescale or details of these negotiations Hospitals GPs and community health services all have a role to play in reducing emergency admissions but financial incentives to make this happen are not in place While hospitals get no money if patients are readmitted within 30 days there are no financial incentives for community and social care services to reduce emergency admissions Both the Department of Health and NHS England struggled to explain to us who is ultimately accountable for the efficient delivery of local A E services

Department of Health Great Britain: Parliament: House of Commons: Committee of Public Accounts,2013-02-07 The strategic management of health resources across the East of

England Strategic Health Authority has failed Ultimate responsibility for this rests with the Department of Health For many years to come the local community as well as the NHS and taxpayers will have to live with the consequences of separate decisions to build a new PFI hospital at Peterborough and to award a franchise to a private company to run the nearby Hinchingbrooke hospital These decisions were taken separately despite the fact that the two hospitals are only 24 miles apart in an area where the NHS has long acknowledged that healthcare provision is running ahead of local needs The reality is that there is not enough funding there for both Trusts to thrive as currently configured Their financial viability will be further eroded if more people are treated outside hospitals in line with present and past government policy Circle Healthcare the franchisee of Hinchingbrooke has not achieved its expected savings in its first few months and its Chief Executive has already left The bid was not properly risk assessed and the successful bidder was encouraged to submit over optimistic savings projections The PFI deal for Peterborough and Stamford PFI hospital has proved catastrophic with the Department now being forced to pay out nearly 1 million a week of taxpayers money to keep the Trust afloat Both Trusts will have to make unprecedented levels of savings to become viable In Peterborough and Stamford s case this won t be enough *Far Eastern Economic Review* ,1998

Department for Education Great Britain: Parliament: House of Commons: Committee of Public Accounts,2012-05-11 The Department for Education is distributing 56 4 billion in 2011 12 to schools local authorities and other public bodies for the delivery of education and children s services in England The Department has set out how it intends to provide Parliament with assurance about the regularity propriety and value for money in an Accountability System Statement the Statement of which the Committee has now seen three drafts Responsibility for value for money is shared by the Department with schools academy trusts local authorities the Young People s Learning Agency and the Department for Communities and Local Government However the Statement does not yet clearly describe the specific responsibilities of each body how these will interact or how the Department will assess value for money across the entire education system The Department relies on local authorities and the YPLA to exercise financial oversight over local authority maintained schools and academies respectively However oversight by some local authorities is currently weak and could worsen as many authorities reduce the resources they devote to overseeing their schools There are also concerns about whether the YPLA will have the right skills systems and capacity to oversee the rapidly increasing numbers of academies expected in coming years More consistent requirements for data and data returns must be applied to all schools so that academic and financial performance can be benchmarked and all schools can be held accountable The Department needs to enforce these requirements more stringently particularly given previous problems with lack of compliance **Current Law Index** ,1999
