General comments

Almost all the questions discriminated well and only one question, **Question 35**, was found to be easy by all the candidates. The stem to each question is kept to a minimum and hence every word in the stem is of significance. Consequently it is very important that candidates read the questions carefully.

Comments on specific questions

Question 4

The most popular distractor was **C**. In sodium chloride the co-ordination number of the sodium ion is six, since it is not only the chloride ions in the same plane as the sodium ion but the chloride ions immediately above and below the sodium ion which are in contact with the sodium ion.
