in the Caribbean India and West Africa In The French and Indian War and the Conquest of New France the only
comprehensive account from the French perspective William R Nester explains how and why the French were defeated He
explores the fascinating personalities and epic events that shaped French diplomacy strategy and tactics and determined
North America s destiny What began in 1754 with a French victory the defeat at Fort Necessity of a young Lieutenant
Colonel George Washington quickly became a disaster for France The cost in soldiers ships munitions provisions and
treasure was staggering France was deeply in debt when the war began and that debt grew with each year Further the
country s inept system of government made defeat all but inevitable Nester describes missed diplomatic and military
opportunities as well as military defeats late in the conflict Nester masterfully weaves his narrative of this complicated war
with thorough accounts of the military economic technological social and cultural forces that affected its outcome Readers
learn not only how and why the French lost but how the problems leading up to that loss in 1763 foreshadowed the French

Revolution almost twenty five years later One of the problems at Versailles was the king s mistress the powerful Madame de Pompadour who encouraged Louis XV to become his own prime minister The bewildering labyrinth of French bureaucracy combined with court intrigue and financial challenges only made it even more difficult for the French to succeed Ultimately Nester shows France lost the war because Versailles failed to provide enough troops and supplies to fend off the English enemy
