Should communication become one of the basic skills of scientists as compulsory as thinking testing and experimenting
Should our schools of the future put scientific literacy at the top of the science curriculum Do we need science critics Does
the coverage of science in the media reflect the choice of the editors or does it accurately mirror the public s interest How
does one capture the public s attention when promoting science on local commercial or entertainment radio Why would we
need standards in science communication How can we remove any obstacles to communication among researchers and
between researchers The book casts light on these issues and many others It offers a selection of good practices and
professional services to scientists and science communicators and should help them design and carry out their
communication activities with a European and international dimension Catalog Food and Nutrition Information Center
