Assessment that Informs Practice ,2000 ENC Focus , **The Art and Practice of Directing for Theatre** Paul B. has become a major problem Daniel Koretz one of the nation's foremost experts on educational testing argues in *The Testing Charade* that the whole idea of test based accountability has failed it has increasingly become an end in itself harming students and corrupting the very ideals of teaching In this powerful polemic built on unimpeachable evidence and rooted in decades of experience with educational testing Koretz calls out high stakes testing as a sham a false idol that is ripe for manipulation and shows little evidence of leading to educational improvement Rather than setting up incentives to divert instructional time to pointless test prep he argues we need to measure what matters and measure it in multiple ways not just via standardized tests Right now we're lying to ourselves about whether our children are learning And the longer we accept that lie the more damage we do It's time to end our blind reliance on high stakes tests With *The Testing Charade* Daniel Koretz insists that we face the facts and change course and he gives us a blueprint for doing better
