SAMJ, 1992 **Methods on the Move**, Cumulated Index Medicus, 1995 **Education, Race, and Social**

Change in South Africa John A. Marcum, 2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa s leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 *Tracing the Domestic Pig* Goran Kušec, Ivona Djurkin Kušec, 2024-07-10 The appearance of the domestic pig today is shaped mainly by the economic expectations of us humans Today s pig has superior reproductive fattening and carcass traits compared to its ancient ancestors This could not be achieved without the highly effective support of scientific research aimed at revealing the genetic basis underlying the important economic traits of pigs and the involvement of novel technologies in phenotyping these animals both in vivo and post mortem Yet the research is spreading beyond the biological issues connected to the production of pigs and their products The latest developments in computer science and informatics technology enable us to collect and store information from all stages in the production of food leading back to its origin Questions about the breed the way the pigs were raised how were they managed and how they were processed into a wide palette of products can be answered by the use of methodologies developed by data scientists and those from the fields of different omics All this information can be passed along the chain to consumers in a repeatable

manner The producers can use these data to manage such complex issues as meat or product quality And this closes the circle Tracing the domestic pig is an attempt to present the current knowledge about this valuable animal its origin composition and the food that it gives us and to predict or foresee what can happen to this species in the time to come

Lifestyle and Epidemiology Kotsedi Daniel Monyeki,Han C.G. Kemper,2021-10-06 Lifestyle and Epidemiology The Double Burden of Poverty and Cardiovascular Diseases in African Populations examines the profile of non communicable diseases NCDs in the rural South African population The burden of diseases in South Africa is characterized by a combination of poverty related diseases with emerging NCDs associated with urbanization industrialization and a Westernised lifestyle Chapters in this book examine the effects of poverty COVID 19 and other social factors on the prevalence of cardiovascular disease reproductive health and diabetes in rural South Africa *Year Book - Royal Society of Tropical Medicine and Hygiene* ,1991 Includes list of fellows *Herbal Medicine in Andrology* Ralf Henkel,Ashok Agarwal,2020-11-13 Herbal Medicine in Andrology An Evidence Based Update provides a comprehensive overview of ethnomedical approaches in andrology including ethnopharmacology of plant extracts and relevant bioactive compounds It highlights information on the availability of medicinal plants and the legal and procedural processes involved in developing a marketable product This reference helps clinicians and scientists develop an understanding on how herbal medicine can be used to treat andrological patients in practice Only a limited number of journal articles are available on this topic making this reference a valuable source of information for a large audience including urologists andrologists gynecologists reproductive endocrinologists and basic scientists Provides essential evidence based information about herbal medicine Offers an ethnopharmacological background on bioactive compounds in certain plant extracts Educates the basic scientist and clinician on the use of herbal medicines in andrology Provides an update to recent advances on herbal medicine in andrology from world experts **Not Yet Democracy** Issa G. Shivji,1998 **Working with indigenous knowledge** Fhumulani M. Mulaudzi,Rachel T. Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented

and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research
