2015 South African Army Intake:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Researching the Military Helena Carreiras, Celso Castro, Sabina Frederic, 2016-03-02 *Researching the Military* focuses on the experiences of researchers who study the military around the world. It explores the historical, social, institutional and personal factors that frame research and scrutinize the way knowledge in this area impacts society and policy. More than merely analyzing research experiences yet necessarily including them, it is also about the experiences of researchers, their position with regard to the object of their studies, the institutional context where they work and the way their research impacts the academic and policy-making fields in the respective countries. The common theme to the various chapters is reflexivity, a conscious effort at addressing the conditions of research and the position of the researcher and the research participants in that interface. By collecting diverse experiences of researchers from across the world, this volume aims to enhance reflexivity in the field of military studies and to encourage the exchange of knowledge between the academic field and the military arena. This book will be of much interest to students of military studies, research methods, sociology, social anthropology and security studies in general.

Market and Violence Heide Gerstenberger, 2022-10-10 Winner of the Deutscher

Memorial Prize 2023 Despite their many disagreements when it comes to the subject of capitalism Marxist and market liberal approaches seem to agree about one thing the economic structures of capitalist market society have made direct violence against the person not only superfluous but economically counterproductive Heide Gerstenberger's *Market and Violence* does not contest the thesis that there has been in many places a decline in the use of violence in the pursuit of profit but it demolishes the assumption that this can be put down to the evolution of economic rationality By means of a deep engagement with the concrete historical reality of capitalist economies Gerstenberger establishes that wherever capitalism has been tamed this has been achieved only by a combination of energetic social contestation and political intervention First published in German in 2018 the present English language edition makes a sweeping history of capitalist violence by one of the preeminent theorists of capitalist society working today available to a wider readership Research Handbook on Civil-Military Relations Aurel Croissant, David Kuehn, David Pion-Berlin, 2024-04-12 Bringing together leading scholars from across the world this comprehensive Research Handbook analyses key problems subjects regions and countries in civil military relations Showcasing cutting edge research developments it illustrates the deeply complex nature of the field and analyses important topics in need of renewed consideration
