In the Midst of Things Mike Owen Benediktsson, 2025-06-17 How ordinary urban objects influence our behavior exacerbate inequality and encourage social change Assumptions about human behavior lie hidden in plain sight all around us programmed into the design and regulation of the material objects we encounter on a daily basis In the Midst of Things takes an in depth look at the social lives of five objects commonly found in the public spaces of New York City and its suburbs revealing how our interactions with such material things are our primary point of contact with the social political and economic forces that shape city life Drawing on groundbreaking fieldwork and a wealth of original interviews Mike Owen Benediktsson shows how we are in the midst of things whose profound social role often goes overlooked A newly built lawn on the Brooklyn waterfront reflects an increasingly common trade off between the marketplace and the public good A cement wall on a New Jersey highway speaks to the demise of the postwar American dream A metal folding chair on a patch of asphalt in Queens exposes the political obstacles to making the city livable A subway door expresses the simmering conflict between the city and the desires of riders while a newsstand bears witness to our increasingly impoverished streetscapes In the Midst of Things demonstrates how the material realm is one of immediacy control inequality and unpredictability and how these factors frustrate the ability of designers planners and regulators to shape human behavior
