ICEL 2017 - Proceedings of the 12th International Conference on e-Learning Laurie O. Campbell, Richard Hartshorn, 2017
Experimental Life Writing Today Vanessa Guignery, Wojciech Drag, 2025-10-02 This comprehensive volume offers compelling critical essays surveying the myriad forms of innovation in contemporary Anglophone life writing. *Experimental Life Writing Today* provides a historical and critical context for examining avant garde tendencies in biography and autobiography and outlines the poetics of experimental life writing. The volume is divided into two parts. The first is devoted to a selection of experimental genres of life writing: autofiction, biofiction, paramemoir, autotheory, graphic memoir, photo memoir, eco memoir, and the lyric essay. Part Two includes chapters concerned with the following themes: concepts and devices set in the context of experimental life writing; illness, disability, mourning, relationality, place, catalogue, narration, and fragmentation. To ensure clarity and consistency, each chapter follows the same structure: a theoretical discussion of a given notion comprising a brief discussion of its various aspects and examples, followed by a close reading of a chosen text. Case studies are devoted to significant contemporary works by authors such as Hazel V. Carby, J. M. Coetzee, Anne Garréta, Karen Green, Vona Groarke, Han Kang, Mary Karr, Deborah Levy, Hilary Mantel, Maggie Nelson, Ruth Ozeki, Mark Tredinnick, Una D. J. Waldie, and Wim Wenders. The volume is dedicated to exploring innovative forms of and in contemporary Anglophone life writing and it makes an important contribution to a rich and burgeoning field of interdisciplinary practice and research.

Sustainable Urban Futures in Africa Michael Addaney, Patrick Cobbinah, 2021-12-30 *Sustainable Urban Futures in Africa* provides a variety of conventional and emerging theoretical frameworks to inform understandings and responses to critical urban development issues such as urbanisation, climate change, housing, slum informality, urban sprawl, urban ecosystem services, and urban poverty among others within the context of the sustainable development goals (SDGs) in Africa. This book addresses topics including challenges to spatial urban development, how spatial planning is delivered, how different urbanisation variables influence the development of different forms of urban systems and settlements in Africa, how city authorities could use old and new methods of land administration to produce sustainable urban spaces in Africa, and the role of local activism in causing important changes in the built environment. Chapters are written by a diverse range of African scholars and practitioners in urban planning and policy, design, environmental science and policy, sociology, agriculture, natural resources management, environmental law, and politics.
