Application Form 2015 University Of Limpopo:

University on the Border Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution the university **Limpopo's Legacy** Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba ECCWS 2018 17th European Conference on Cyber Warfare and Security V2 Audun Jøsang, 2018-06-21 *Handbook of Research on Coping Mechanisms for First-Year Students Transitioning to Higher Education* Aloka, Peter, Mukuna, Kananga Robert, 2023-02-20 Transitioning from secondary to higher education is not a natural step for many first year students in higher education institutions There is a considerable difference between being a student at school and university and previous research has highlighted the difficulties faced by first year university students during their transition phase Higher education institutions and their departments acknowledge the challenges faced by new students and they differ in their approach to coping with the issue each seeks to find the most effective solution for its students To reduce the withdrawal rate during the first year of college higher education providers are expected to apply transition programs to help students transition The Handbook of Research on Coping Mechanisms for First Year Students Transitioning to Higher Education presents a comprehensive account of the dynamics in higher education institutions and culture shock for new students and analyzes models and theories of adjustment of new students in higher education institutions Covering key topics such as gender institutional support and success factors this reference work is ideal for administrators higher education professionals researchers scholars academicians practitioners instructors and students

Culture, philosophies and reforms in public administration for the globalizing world Edwin O.C.

Ijeoma, Ogochukwu I. Nzewi, 2018-12-31 The aim of this scholarly collected work is to contribute to the scientific discourse on public administration in a globalised environment The book reflects on governance challenges in South Africa and in Africa with its point of departure being the master narratives the so called grand debates such as New Public Management and specifically the role of technology It also reflects on the so called middle range discourses concerning organisational level issues in government e g leadership and work procedures and explores new solutions to old governance challenges like

corruption and service delivery The uniqueness of this collected work lies in its ability to reflect on existing philosophies and practices in an innovative way Through its multidisciplinary lens the book opens up a new vision for the future of public administration in the South African context and on the African continent not neglecting the current local regional and global environment Until recently globalisation was considered an entrenched world order but international political events during the course of the past few years have resulted in one of the biggest challenges to its endurance in recent history This includes developments such as the successful referendum in Britain to exit the European Union highlighting the growth of a severe nationalist and protectionist agenda that may be a signal of the unravelling of the current globalism world order These developments inspire deeper interrogation of the challenges to effective public administration globally and the ripple effects in South Africa and Africa as a whole Pointedly it is evident that ensuring the voice of citizens in policy decision making remains a critical governance challenge On the policy front there are perennial challenges of land reform service delivery and poverty while on the governance front corruption has metastasised with a growing culture of impunity and lack of accountability in leadership In the midst of growing corruption and more than 20 years into democracy South Africa's income inequality remains one of the highest in the world This setting constitutes the context of the research outcome published in this scholarly work

Handbook of Health and Well-Being Sibnath Deb, Brian A. Gerrard, 2022-03-07 This evidence based book focuses on contemporary issues related to human health and well being Drawing on the first hand experiences of academics and researchers it provides a holistic perspective on the importance of both mental and physical health for quality of life It is divided into seven sections changing perspectives on well being the mental health of students the well being of elderly people and marginalized populations the role of family and teachers psycho social support the right to health and future perspectives Covering current topics such as the challenges posed by pandemics like COVID 19 the book discusses future strategies for addressing contemporary and emerging health issues and the overall well being of the general public an area not covered in any of the previous volumes Furthermore it explores the need for the involvement of multidisciplinary professionals in examining general health and well being issues Given its scope it is an indispensable resource for a wide range of professionals and researchers from various fields such as the social sciences law public health medicine education and environmental studies In addition the book appeals to health policymakers educational administrators law enforcement agencies as well as health workers psychologists and social workers dealing with clients in hospitals educational institutions and at the community level

Social Work in Social Change Nicci Earle, 2008 This study forms part of a series of studies on professions and professional education being conducted by the HSRC's research programme on Education Science Skills Development It follows a pilot study on medical doctors published in 2006 entitled *Doctors in a Divided Society* The profession and education of medical practitioners in South Africa Like the other studies in the series this study involved developing an understanding of the professional milieu and professional labour market of social

workers As the implementers of government social policy social work professionals have been at the forefront of grappling with the practicalities of the changes in focus approach and methods of social security and social service delivery since 1994 It examines developments in the education and training of social workers within the democratic dispensation the most significant of which is the development of a national standardised Bachelor of Social Work degree The study also reveals that the dominant profile in student enrolment and graduation statistics has changed from white female to African female and that enrolment has increased significantly However the study also shows that graduation trends have been negative and losses due to emigration are an additional concern Given the scarcity of these professionals against the demand for their services understanding the factors that contribute to this picture are critical to effective intervention *Annual Report ...* South Africa.
