Application Form For 2016 Dwu:

Race, Gender and Contemporary International Labor Migration Regimes Leticia Saucedo, Robyn Magalit Rodriguez, 2022-12-13 Migrant workers around the world are subject to exploitative labor practices that give employers extraordinary bargaining power. This book brings together researchers, practitioners and advocates who explore the many ways that contracted migrant workers are rendered vulnerable in the workplace. In this book, the term 21st century coolie is deployed as a heuristic device that foregrounds the deeply unequal structures shaping the transnational flows of short-term migrant workers. The term coolie harkens back to the labor arrangements of earlier centuries that involved conscripted labor, indentured servitude and contract labor across national borders. Like those of past centuries, today's coolies are subject to legal constraints inside and outside the employment relationship that force them into subjugated positions within the workplace. *Handbook of Sustainability Science and Research* Walter Leal Filho, 2017-10-03 This multidisciplinary handbook explores concrete case studies which illustrate how sustainability science and research can contribute to the realization of the goals of the 2030 Agenda for Sustainable Development. It contains contributions from sustainability researchers from across the world. **Protecting the Rights of Women Migrant Domestic Workers** Sophie Henderson, 2022-02-09 Migrant women across Asia disproportionately work in precarious, insecure and informal employment sectors that are subject to few regulations, pay low wages and expose women to harm of which domestic work is among the most prevalent. This book uses the cases of the Philippines and Sri Lanka to develop a comprehensive intersectional rights-based approach to better protect women migrant domestic workers against exploitation. As accounts of exploitation, gender-based violence, torture and death among migrant domestic workers increase, the recognition and defence of their human and labour rights is an urgent necessity. The Philippines and Sri Lanka are two of the leading labour-sending states of women domestic workers in Asia and their economies have become increasingly dependent on the remittances they send back home. Drawing on extensive original research, this book argues that these two sending states are guilty of structural violence by sustaining a network of institutions, policies and practices which serve to systematically disadvantage and discriminate against women migrant domestic workers. The research covers the entire migration process from pre-departure through to overseas employment followed by return and reintegration. This book's innovative application of structural violence theory as a way to investigate the role of state institutions in labour-sending countries in the Global South will be of interest to researchers from across the fields of migration studies, gender studies, human rights law and Asian Studies. Ensuring Quality in Professional Education Volume II Karen Trimmer, Tara Newman, Fernando F. Padró, 2019-01-11 This book examines quality teaching in professional education in the fields of engineering and international knowledge structures. The second of a two-volume series, the editors and contributors structure the book around case studies which highlight the elements constituting good practice within professional education. While there is no one specific route to prepare well-qualified

professionals this volume explores the decisions the academics responsible for delivering this education make to ensure quality curricula Ultimately the key to effective preparations rests with the value employers place on the focus emphasis and balance between the academic and practical in relation to their own expectations for skills that graduates must have The second volume in this collection will appeal to students and scholars of professional pedagogy and engineering pedagogy more specifically Curated Stories Sujatha Fernandes,2017 Curated storytelling Charting the storytelling turn Stories and statecraft why counting on apathy might not be enough Out of the home into the house how storytelling at the legislature can narrow movement goals Sticking to the script the battle over representations Rumbas in the barrio personal lives in a collectivist project *Fiscaal praktijkboek indirecte belastingen 2017-2018* ,2017 Papers on current issues in the field of direct taxation in Belgium by various authors *Gendering Struggles Against Informal and Precarious Work* Rina Agarwala,Jennifer Jihye Chun,2018-12-10 This volume examines how gender shapes the varying and intersecting dynamics of informal precarious worker struggles in two gender typed sectors domestic work and construction Drawing upon cases across the global North and South it explores how gender is intertwined into collective organizing efforts why gender is addressed and to what end *The Routledge Handbook of the Gig Economy* Immanuel Ness,2022-10-31 Research on the growth of the precarious economy is of significant interest as the economy increasingly becomes dependent on gig work However as platform and automated service work has grown there remains a chasm in understanding the key aspects of digital labour This handbook presents comprehensive theoretical empirical and historical accounts of the political economy of informal work from the late 20th century to the present It examines the rich and varied analysis and critique of the informalisation of work focusing on its most significant theories intellectual traditions and authors It highlights the political social cultural and developmental impact of the deterioration of employment in the Global North and Global South as well as the extreme threat posed to the planet by the growth of contingent work poverty and enduring and increasing inequalities produced and reproduced by the reformation of capitalism in the contemporary age of neoliberal capitalism The period from the 1980s to the present is marked by the expanded extraction of surplus value from workers through the creation of non standard jobs and the restructuring of work A central component of the restructuring of work is the extension of gig employment through the development of algorithmic platforms which direct labourers to perform discrete tasks This is a definitive collection representing the primary reference work contributing to our understanding of the subject The book is written and presented in a clear manner accessible to scholars and researchers of international political economy labour economics and sociology who are eager for new research examining this phenomenon as well as specialists in the field of labour relations Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Funded by the University of Amsterdam *Haiku po polsku. Starego Państwa ostatniego stulecia III tysiąclecia p.n.e. i Okresu Ptolemejskiego trzy ostatnie stulecia I tysiąclecia p.n.e. Starsza z dwu nekropolii położona w warstwie dolnej zawiera dziesiątki grobowców w których częściowo została wykuta w stopniach skalnych wcześniejszego kamieniołomu z którego czerpano materiał do budowy kompleksu grobowego Dżesera. Kaplice kultowe najstarszych spośród odkrytych tu mastab zawierają unikatowe dekoracje ścienną tynktą pokrytą malowidłami wzbogacającymi naszą wiedzę o sztuce egipskiej tego okresu a będące jednocześnie cennymi źródłami do poznania historii tych burzliwych czasów kiedy znakomicie zorganizowane państwo faraonów chyliło się po raz pierwszy ku upadkowi. Zachowane teksty hieroglificzne i przedstawienia figuralne m.in. sceny polowań i bankietów a także portrety rodzinne pozwalają wnioskować o atmosferze konfliktów politycznych i rodzinnych w jakimś stopniu o życie codzienne tamtego okresu. Główna warstwa badanego terenu zawiera natomiast setki pochówków w formie mumii spowitych najczęściej bogato dekorowanymi powłokami zwanymi kartonami. Przesłanki topograficzne i ikonograficzne pozwalają wnioskować że cmentarzysko powstało w bezpośrednim sąsiedztwie pierwszego prowizorycznego grobu Aleksandra Wielkiego zanim jego mumie przeniesiono do Aleksandrii. Autor prezentuje te techniki archeologiczne i różne sposoby dochodzenia do prawdy historycznej na podstawie fragmentarycznie zachowanych źródeł. Jeden z rozdziałów jest poświęcony pracom polskich konserwatorów w których stanowi integralną część programu badawczego. Opis prac wykopaliskowych obfituje w anegdoty z życia misji.
