LC-MS/MS in the Mycotoxins Studies Laura Gámiz-Gracia, Ana M. García-Campaña, Natalia

Arroyo-Manzanares, 2020-06-17 Mycotoxins are secondary metabolites produced by the fungi of different species mainly

Aspergillus Fusarium and Penicillium with toxic effects for humans and animals These mycotoxins can contaminate food and feed The European Union EU has established the maximum permitted or recommended levels for well known mycotoxins in different foodstuffs However there are other mycotoxins that are not included in the regulations the emerging mycotoxins whose toxicity is still not clear and the modified or masked mycotoxins produced as a consequence of a detoxification strategy of the host plant of the fungus or during food processing These mycotoxins could pose a risk and should also be taken into account In order to assure consumers health analytical methods for the accurate determination of mycotoxins in different food matrices and feeds are required In this sense liquid chromatography tandem mass spectrometry LC MS MS is a powerful tool for their unique identification and quantification Moreover the use of high resolution mass spectrometry HRMS allows one to identify novel mycotoxins and targeted untargeted approaches for study This Special Issue compiles recent applications of LC MS MS in mycotoxin studies as well as the development and validation of new analytical methods for their identification and quantification in different food matrices and feed occurrence studies and the biomonitoring of mycotoxins and their metabolites in biological fluids

What has media freedom entailed over the couple of centuries and successive governments of the geopolitical region that became South Africa since it was colonised by Westerners And why can media freedom be described as both pillar and cornerstone of a democracy It s simple as in the words of Nelson Mandela first state president of a democratic South Africa Press freedom is the lifeblood of democracy This book tells the tale of the various states of press freedom or unfreedom from colonial times to today from a British governor called a dictator and a despot through apartheid s pigmentocracy or sjambokocracy where the rule of law has been replaced by the rule of the whip up to the dawn of liberation with media freedom entrenched in Article 16 of South Africa s Bill of Rights And why should all of this concern you Because media freedom is not about the freedom of the media It is about your freedom As was formulated by an editor under apartheid If we don t have a public sympathetic to a free press not only will we not have a free press we won t have a democracy either Or in the words of former Sowetan editor and SANEF chair Mpumelelo Mhkabela Media freedom has nothing to do with the media but with the freedom of citizens And that is why you should know that a free media is the only guarantee for your freedom As we have seen both under apartheid and also under a democratic dispensation it is a matter of a luta continua The struggle continues But you the public are the guardian of those that guard democracy Help ensure the rights of a free media and thereby your democratic rights and a democratic South Africa **Domestic and Regional**
