Finding Relevant Information	I know several strategies to help me find the information I need to make a good decision.	I know how to find the information I need to make a good decision.	With help, I can usually find the information I need to make a good decision.	I cannot find the information I need to make a decision.
Creating Options	I think of several possible choices when an important decision must be made.	I think of more than one option when I have to make an important decision.	When I have help, I can think of more than one option when I have to make an important decision.	I usually can only think of one possible choice when I have to make an important decision.
Weighing Options	I use a variety of reasoning strategies to weigh my options and choose the best one.	I think carefully about all my choices before I make a decision.	Unless someone reminds me, I often make decisions without thinking carefully about them.	I usually make important decisions quickly without thinking carefully about them.
Predicting Consequences	I predict the consequences of each of my decisions and think about the impact that they will have on others and me.	I think about the consequences of my decisions.	I have trouble thinking about what the consequences of my decisions will be.	I do not think about the consequences of my decisions.
