Holick, 2010-06-27 In *Vitamin D Physiology Molecular Biology and Clinical Applications* Second Edition leading researchers provide a comprehensive highly readable overview of the biological functions and clinical applications of vitamin D and its metabolites Topics range from the most recent recommendations for vitamin D intake to new approaches for the treatment and prevention of vitamin D deficiency and the development of active vitamin D drugs to treat psoriasis and cancer The book demonstrates the significant role that vitamin D has in maintaining good bone health and the prevention of osteoporosis an important health problem for adults over the age of fifty In addition it authoritatively reviews the relationship between sunlight exposure vitamin D and increased risk of colon and breast cancer how vitamin D is made in the skin and the sequence of events that leads to its activation by the kidney Also examined are the biological functions of 1,25 dihydrovitamin D₃ on the intestine and bone as well as other tissues such as skin the immune system prostate and breast and vitamin D's molecular mechanism of action on the cell membrane and nucleus The first edition of *Vitamin D Physiology Molecular Biology and Clinical Applications* was the benchmark in the field when published in 1999 This new and expanded volume continues to include extensive in depth chapters covering the most important aspects of the complex interactions between vitamin D and other dietary components the ongoing debate concerning the best indicator of optimal vitamin D status and its nutrient requirements and the impact of less than optimal status on disease risk *Vitamin D Physiology Molecular Biology and Clinical Applications* Second Edition is designed and organized not only to be an up to date review on the subject but also to provide medical students graduate students health care professionals and even the lay public with a reference source for the most up to date information about the vitamin D deficiency pandemic and its clinical implications for health and disease

This Week in South Africa, 1995 *Anxious Joburg* Nicky Falkof, Cobus van Staden, 2020-10-01 An interdisciplinary account of the life of Johannesburg South Africa's global south city *Anxious Joburg* focuses on Johannesburg the largest and wealthiest city in South Africa as a case study for the contemporary global South city Global South cities are often characterised as sites of contradiction and difference that produce a range of feelings around anxiety This is often imagined in terms of the global North's anxieties about the South migration crime terrorism disease and environmental crisis *Anxious Joburg* invites readers to consider an intimate perspective of living inside such a city How does it feel to live in the metropolis of Johannesburg what are the conditions intersections affects and experiences that mark the contemporary urban Scholars visual artists and storytellers all look at unexamined aspects of Johannesburg life From peripheral settlements to the inner city to the affluent

northern suburbs from precarious migrants and domestic workers to upwardly mobile young women and fearful elites Anxious Joburg presents an absorbing engagement with this frustrating dangerous seductive city It offers a rigorous critical approach to Johannesburg revealing the way in which anxiety is a vital structuring principle of contemporary life The approach is strongly interdisciplinary with contributions from media studies anthropology religious studies urban geography migration studies and psychology It will appeal to students and teachers as well as to academic researchers concerned with Johannesburg South Africa cities and the global South The mix of approaches will also draw a non academic audience

Baragwanath Hospital, Soweto Simonne Horwitz, 2013-09-01 Baragwanath Hospital Soweto illustrates how this rapidly growing underfunded but surprisingly effective institution found the niche that allowed it to exist to provide medical care to a massive patient body and at times even to flourish in the apartheid state The book offers new ways of exploring the history of apartheid apartheid medicine and health care The long history of Chris Hani Baragwanath Hospital its full current name or Bara as it is popularly known has been shaped by a complex set of conditions Established in the early 1940s Bara stands on land purchased by the Cornish immigrant John Albert Baragwanath in the late nineteenth century He set up a refreshment post trading store and hotel on the site in what is now Soweto which was a one day journey by ox wagon from Johannesburg The hotel became affectionately known as Baragwanath Place the surname is Welsh from bara meaning bread and gwenith meaning wheat The land was then bought by Corner House Mining Group and later taken over by Crown Mines Ltd but was never mined The British government bought the land in the early 1940s to build a military hospital but by 1947 Baragwanath ceased to operate as a military hospital and under the auspices of the Transvaal Provincial Administration a civilian hospital was opened with 480 beds Patients were transferred from the non European wing of the Johannesburg General Hospital in the white area of Johannesburg Links were immediately forged with the University of the Witwatersrand and Bara would over time become one of its largest teaching centres This link brought medical students and their teachers into direct contact with apartheid in the medical sphere This book will contribute to studies of the history of apartheid that have begun to provide a more nuanced account of its workings The history of Baragwanath and of the doctors and nurses who worked there tells us much about apartheid ideology and practice as well as resistance to it in the realm of health care **The Angina**

Monologues Rosamund Kendal, 2010 The story of three very different women finding courage love and compassion in the most unlikely places this narrative follows medical interns as they work in a rural South African hospital Spoiled Rachel struggles to establish her independence and learns to love across the cultural conservative Seema attempts to end a relationship that has become increasingly abusive and street savvy Nomsa finally accepts a past that she has spent a lifetime denying Coping with rogue snakes gang assassinations and the public's denial of AIDS these women demonstrate what it takes to be a doctor in South Africa Penetrating Trauma George C. Velmahos, Elias Degiannis, Dietrich Doll, 2011-09-28 Surgery needs skill Skill needs knowledge Knowledge of tricks moves and tools This book is about such knowledge Expert

authors have contributed technical pearls gained by years of experience The short how I do it chapters offer the reader a quick and effective guide that will be invaluable when addressing any penetrating injury The book is not intended to serve as a comprehensive volume of pathophysiology and management in trauma rather the goal is to provide practical solutions on how to treat injuries surgically It describes the steps that you must take when in the middle of the night confronted with devastating bleeding you will have only one chance to save a life *Advancing Brain Cancer Care* Zodwa
