between Jesuits and Protestants in Africa Robert Aleksander Maryks,Festo Mkenda, S.J.,2018-01-03 Protestants entering Africa in the nineteenth century sought to learn from earlier Jesuit presence in Ethiopia and southern Africa The nineteenth century was itself a century of missionary scramble for Africa during which the Jesuits encountered their Protestant counterparts as both sought to evangelize the African native Encounters between Jesuits and Protestants in Africa edited by Robert Alexander Maryks and Festo Mkenda S J presents critical reflections on the nature of those encounters in southern Africa and in Ethiopia Madagascar the Democratic Republic of Congo and Fernando Po Though largely marked by mutual suspicion and outright competition the encounters also reveal personal appreciations and support across denominational boundaries and thus manifest salient lessons for ecumenical encounters even in our own time This volume is the result of the second Boston College International Symposium on Jesuit Studies held at the Jesuit Historical Institute in Africa Nairobi Kenya in 2016 Thanks to generous support of the Institute for Advanced Jesuit Studies at Boston College it is available in Open Access *African Perspectives on Reshaping Rural Development* Mafukata, Mavhungu Abel,Tshikolomo, Khathutshelo

Alfred, 2019-11-22 Development studies in developing regions such as Southern Africa rely heavily on materials developed by Europeans with a European context. European dominance in development studies emanates from the fact that the discipline was first developed by Europeans. Some argue that this has led to distortions in theory and practice of development in Southern Africa. This book wishes to begin Africa's expedition to develop proper material to de-Westernize while Africanizing the context of the scholarship of rural development. African Perspectives on Reshaping Rural Development is an essential reference source that repositions the context of rural development studies from the Western-centric knowledge system into an African context in order to solve African-centered problems. Featuring research on topics such as food security, poverty reduction, and community engagement, this book is ideally designed for planners, researchers, practitioners, policymakers, government officials, academicians, and students seeking clarity on theory and practice of development in Africa.
