Approach Building Guide Investing Physician Practical Wealth:

The Physician's Guide to Investing Robert M. Doroghazi, Dan Wright French, 2007-11-03 I met Bob Doroghazi when he dropped the first draft of his manuscript of *The Physician's Guide to Investing A Practical Approach to Building Wealth* at my office I will have to admit I was a bit skeptical a physician writing a book on investments During that first meeting with Bob it became evident that he had been a successful physician and a successful investor so I agreed to take a look at the book I was in for a pleasant surprise Bob's manuscript was easy to read and had specific advice useful to physicians interspersed with lots of practical tidbits for any investor Having written three college level finance and investment texts I was excited to be in on a project aimed at offering practical investment advice to a more general yet specialized audience I had high expectations for the book and am pleased to say that I believe Bob has delivered a book that every physician interested in building wealth and protecting assets should read Bob is a straight shooter he tells it like he sees it in his book Some doctors might be indignant on reading his statements such as Physicians sometimes have no idea of their limitations This type of arrogance and ego can result in investing disaster However if you do have these limitations and most professionals even college professors do then reading Bob's book will help you recognize situations in which they can lead to poor investment decisions

The Physician's Guide to Investing Robert Doroghazi, 2009-07-25 In comments that were unfortunately prescient Dr Doroghazi said in the first edition the author feels we are currently experiencing a real estate bubble And in anticipation of the credit crisis he said banks are far too lenient in their lending practices the problem is that bankers are often not lending their own money considering that a significant percentages of mortgages are sold to Fannie Mae FNM and Freddie Mac FRE the problem is now actually everyone's This new and expanded edition provides commonsense advice that all investors physicians and non physicians will find profitable in these difficult times Learn about the power of thrift the magnificence of compound interest the malevolence of debt and the perniciousness of fees See how to pay off the mortgage by age 45 fund your children's education and retire at a reasonable age rather than continue to work because you must **The Physician's**

Guide To Investing Robert M. Doroghazi, Dan W. French, 2005 In addition the author offers sound advice on setting financial goals drawing up appropriate documents saving for retirement and a child's education purchasing insurance and minimizing fees Dr Doroghazi's advice is based on many years of personal financial management and investing that have allowed him to pay his own way through college and medical school to own his own home and a vacation condominium free of debt to fund his children's education and to have accumulated sufficient assets to achieve financial security at an early age Jacket **Medicine for Life: A Practical Guide for Success** Jacques G LeBlanc M.D., F.R.C.S.C., 2015 Deciding on a career path is difficult for many people Deciding of the best university of an interesting and challenging subspecialty of where to get established are just a few of the vast challenges you will face in preparing for a successful medical career Whether you are a medical student a resident a family practitioner or a specialist this book is an essential guide for many if not every facet of

your medical career It is a valuable resource because it covers a wide variety of topics such as choosing a medical school a residency training program a type of practice establishing your practice surrounding yourself with experts accountants financial advisors banker and others understanding the realities challenges and up coming changes in medical practice preparing for retirement and retiring Browse to the book as often as you want to refresh your memory to look at a specific subject
