ECMLG 2017 13th European Conference on

Management, Leadership and Governance Martin Rich, 2017-12-11 These Proceedings represent the work of contributors to the 13th European Conference on Management Leadership and Governance ECMLG 2017 hosted this year by the Cass Business School City University of London on 11-12 December 2017. The Conference Chair is Dr Martin Rich. The conference will be opened with a keynote address by Dr Helen Rothberg from Marist College Poughkeepsie USA with a speech entitled 'Everything I Know about Leadership I Learned as a Bartender'. On the second day the keynote will be delivered by Dr Amanda Goodall from City University of London on the topic of 'Why we need core business experts as leaders'. ECMLG is a well established platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in many different branches of Management Leadership and Governance. At the same time it provides an important opportunity for members of the community to come together with peers, share knowledge and exchange ideas. With an initial submission of 160 abstracts, after the double blind peer review process there are 61 academic papers, 8 PhD Papers and 2 Work in Progress papers in these Conference Proceedings. These papers reflect the truly global nature of research in the area with contributions from Australia, Austria, Belgium, Brazil, Canada, Czech Republic, Finland, Germany, Hungary, Iran, Ireland, Israel, Kazakhstan, Kenya, Lithuania, Malaysia. Ecological Informatics Friedrich Recknagel, William K. Michener, 2017-09-21 This book introduces readers to ecological informatics as an emerging discipline that takes into account the data intensive nature of ecology, the valuable information to be found in ecological data and the need to communicate results and inform decisions including those related to research, conservation and resource management. At its core, ecological informatics combines developments in information technology and ecological theory with applications that facilitate ecological research and the dissemination of results to scientists and the public. Its conceptual framework links ecological entities, genomes, organisms, populations, communities, ecosystems, landscapes with data management, analysis and synthesis and communicates new findings to inform decisions by following the course of a loop. In comparison to the 2nd edition published in 2006, the 3rd edition of *Ecological Informatics* has been completely restructured on the basis of the generic conceptual framework provided in Figure 1. It reflects the significant advances in data management, analysis and synthesis that have been made over the past 10 years, including new remote and in situ sensing techniques, the emergence of ecological and environmental observatories, novel evolutionary computations for knowledge discovery and forecasting and new approaches to communicating results and informing decisions. *Participation of Young People in Governance Processes in Africa* Kurebwa, Jeffrey, Dodo, Obadiah, 2019-06-28 Active political engagement requires the youth of today to begin their journeys now to be leaders of tomorrow. Young individuals are instrumental in providing valuable insight into issues locally as well as on a national and international level. *Participation of Young People in Governance Processes in Africa* examines the role of young peoples involvement in governance processes in Africa and demonstrates how they are engaging in active citizenship. There is an intrinsic value in upholding their right to participate in decisions that affect their daily lives and their

communities and the content within this publication supports this by focusing on topics such as good citizenship youth empowerment democratic awareness political climate and socio economic development It is designed for researchers academics policymakers government officials and professionals whose interests center on the engagement of youth in active citizenship roles
