Early Career Academics in Educational Research, 2024-12-02 Neoliberal theory on higher education highlights the challenges faced by academics in the new times of academia Quality improvement programs and academic accountability mechanisms have been advocated but the profession's precariousness and stress make early career researchers especially vulnerable The highly competitive funding environment and increased non research duties put academics time and dedication at risk Early career academics can enhance Sub Saharan African educational research by contributing effectively to contextually relevant research collaborating with regional colleagues and pursuing international collaboration and financing However more research is needed to understand the experiences of the new generation of academics and their responses to new performativity criteria Contributors are Ikechi Agbugba Wiets Botes Darrell de Klerk Alan Felix Claire Gaillard Dean Langeveldt Bheki Mngomezulu Thembeke Myende Amasa Ndofirepi Ntombikayise Nkosi Felix Okoye June Palmer Doniwen Pietersen Percy Sepeng Kevin Teise Victor Teise and Yusef Waghid **Sol Plaatje's Mhudi** Sabata-mpho Mokae, Brian Willan, 2021 Sol Plaatje's Mhudi is the first full length novel in English to have been written by a black South African and is widely regarded as one of South Africa's most important literary works Set in the 1830s it tells the tale of Mhudi and Ra Thaga a romantic story set against a violent backdrop of war between Barolong and Matebele complicated by the intrusions of Boer trekkers with whom the Barolong form an alliance It is notable among other things for the way Plaatje uses the past to explore the roots of the oppression and injustice suffered by his people a century later when the book was written Page 4 of cover *Biostatistics Modeling and Public Health Applications* Ding-Geng Chen, Carlos A. Coelho, 2024-12-13 This book provides an overview and compilation of contemporary topics and innovative approaches in biostatistical modeling through their applications to evidence based public health research and decision making This book covers topics in 3 parts as 1 Biostatistical Modeling 2 Imaging Data Analysis and 3 Public Health Applications Topics should appeal to both expert statisticians as well as health researchers interested in biostatistical methodological applications in evidence based health research The book is a resourceful manual and can be used as an authoritative reference The features covered in this book will appeal to researchers where public health research is being rigorously conducted **Redefining Education and Development** Kaitano Dube, 2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications

of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book s blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development
