Applying To Nmmu 2016:

Achieving Nelson Mandela University? Sibongile Muthwa, Denver A. Webb, 2024-08-20 South Africa's higher education sector is rooted in the country's divided past. A significant State-driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities. But just over two decades later, for a variety of reasons, the higher education sector in South Africa appears beset with numerous challenges. Nelson Mandela University is one of the public universities that emerged from the restructuring process. The university is in an ongoing state of evolution of becoming. It developed out of the amalgamation of the University of Port Elizabeth, Port Elizabeth Technikon, and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005. In 2017 it was renamed Nelson Mandela University after the world-renowned statesman rather than the metropolitan area in which the university is primarily located. The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society, striving to be the academic expression of the values and ethos of its iconic namesake. Endeavouring to be something greater and different from the norm imbues its strategy, public statements and practices. The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar. A cross-section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution. While Nelson Mandela University has performed the usual work expected of any university, it has also sought to turn the university outwards to achieve a higher purpose, framing itself as a values-based university on a journey to become something else. In *Achieving Nelson Mandela University*, the university attempts to give an account of itself. The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go. [Chasing Challenges](#) Shawn Gouws, 2025-09-01 *Chasing Challenges* is the autoethnography of the teaching career of Dr Shawn Gouws, a distinguished senior lecturer at Nelson Mandela University. After enrolment, he studied at the PE Technikon in 1990 and completed his DTech in Chemistry in 1999. After a one-year postdoctoral fellowship at LEOPR in Grenoble, France, he joined the Nelson Mandela University Chemistry Research Department. Shawn continued to pursue challenges in various technical support projects at InnoVenton. In 2012, he became a programme coordinator and was tasked with developing the course content for the Diploma in Chemical Technology. Various industry stakeholders contributed to producing graduates with the necessary attributes and skills for employment in the industry environment. This book discusses various education philosophies and levels in Education 10 to 50 and highlights interactions with industry and the language barriers students face and need to overcome to be successful in their studies. There is always a new challenge to chase. His passion for research is in the area of green hydrogen production. To accomplish this task, his research will focus on finding alternative catalysts to split water into

hydrogen and oxygen using a proton exchange membrane water electrolyser Naturally one objective will be to train graduates to benefit from this emerging industry in South Africa
