Svantesson, 2017 Internet jurisdiction has emerged as one of the greatest and most urgent challenges online affecting areas as diverse as e commerce data privacy law enforcement content take downs cloud computing e health cyber security intellectual property freedom of speech and cyberwar In this innovative book Professor Svantesson presents a vision for a new approach to Internet jurisdiction based on an extensive period of research dedicated to the topic The book demonstrates that our current paradigm remains attached to territorial thinking that is out of sync with our modern world especially but not only online Having made the claim that our adherence to the territoriality principle is based more on habit rather than on any clear and universally accepted legal principles Professor Svantesson advances a new jurisprudential framework for how we approach jurisdiction a framework that unites private and public international law He also proposes several other reform

initiatives aimed at equipping us to solve the Internet jurisdiction puzzle In addition the book provides a history of Internet jurisdiction and challenges our traditional categorisation of different types of jurisdiction It places Internet jurisdiction in a broader context and outlines methods for how to properly understand and work with rules of Internet jurisdiction While Solving the Internet Jurisdiction Puzzle paints a clear picture of the concerns involved and the problems that needs to be overcome this book is distinctly aimed at finding practical solutions anchored in a solid theoretical framework Professor Svantesson argues that many of the Internet jurisdiction problems we face are due to a sleepwalking like acceptance of orthodox thinking Solving the Internet Jurisdiction Puzzle acts as a wake up call to this issue

Designing Climate Solutions Hal Harvey,Robbie Orvis,Jeffrey Rissman,2018-11-01 With the effects of climate change already upon us the need to cut global greenhouse gas emissions is nothing less than urgent It s a daunting challenge but the technologies and strategies to meet it exist today A small set of energy policies designed and implemented well can put us on the path to a low carbon future Energy systems are large and complex so energy policy must be focused and cost effective One size fits all approaches simply won t get the job done Policymakers need a clear comprehensive resource that outlines the energy policies that will have the biggest impact on our climate future and describes how to design these policies well Designing Climate Solutions A Policy Guide for Low Carbon Energy is the first such guide bringing together the latest research and analysis around low carbon energy solutions Written by Hal Harvey CEO of the policy firm Energy Innovation with Robbie Orvis and Jeffrey Rissman of Energy Innovation Designing Climate Solutions is an accessible resource on lowering carbon emissions for policymakers activists philanthropists and others in the climate and energy community In Part I the authors deliver a roadmap for understanding which countries sectors and sources produce the greatest amount of greenhouse gas emissions and give readers the tools to select and design efficient policies for each of these sectors In Part II they break down each type of policy from renewable portfolio standards to carbon pricing offering key design principles and case studies where each policy has been implemented successfully We don t need to wait for new technologies or strategies to create a low carbon future and we can t afford to Designing Climate Solutions gives professionals the tools they need to select design and implement the policies that can put us on the path to a livable climate future
