

Alien Encounters

Background: In their year 2000, scientists at the SETI Institute and the University of California, Berkeley, announced that they had discovered a signal from a distant star system. The signal was a series of pulses, and the scientists believed that it was a message from an alien civilization. The signal was discovered in 1995, and the scientists announced their discovery in 2000. The signal was discovered by the SETI@home project, which is a distributed computing project that searches for signals from alien civilizations. The signal was discovered by a computer that was part of the SETI@home project. The signal was discovered in the form of a series of pulses, and the scientists believed that it was a message from an alien civilization.
