Old? Richard J. Leider, Richard J Leider, David A Shapiro, 2021-07-13 A valuable guide The authors gentle tone and many helpful suggestions will make readers feel as if they are listening to a close friend Publishers Weekly This is a book about how to grow old with the emphasis on grow The path of purposeful aging is accessible to all and it s fundamental to health happiness and longevity In their bestseller Repacking Your Bags Richard J Leider and David A Shapiro defined the good life as living in the place you belong with people you love doing the right work on purpose This book builds on that definition to offer a purposeful path for living well while aging well With a focus on developing and deepening a sense of purpose in later life Who Do You Want to Be When You Grow Old celebrates the experience of aging with inspiring stories real world practices and provocative questions Framed by a long conversation between two old friends the book reconceives aging as a liberating experience that enables us to become more authentically the person we always meant to be with each passing year In a culture that offers little guidance for growing old but excels at pushing elders aside here s a book that will help us age into the fullness of life Parker J Palmer author of On the Brink of Everything **EBOOK: A-Z of Teaching** Jonathan

Savage, Martin Fautley, 2013-07-16 A Z of Teaching provides an informative engaging and accessible introduction to the art and craft of teaching introducing you to a range of essential topics alongside some of the key ideas and key thinkers from the educational research literature The topics covered range from practical teaching advice on areas such as questioning to exploration of significant themes within education such as creativity Each entry includes An introduction to the topic with a definition of the term An exploration of key ideas within the topic Reference to the work of key thinkers who have explored the topic in the educational literature How these ideas apply in your day to day practice of teaching and learning A set of questions for you to consider as you seek to develop your pedagogy in a particular topic area Further reading and references including links to relevant writings in other publications or online sources Teaching is a broad and complex activity so whether you are thinking about becoming a teacher training to be a teacher or a qualified teacher wishing to keep abreast of

the latest thinking in the field the ideas contained in this book will prove helpful and constructive as you seek to develop your teaching skills Every so often a new idea unfolds that seems so deceptively simple that one wonders why it hasn't appeared before now this is the case with A Z of Teaching Serving as a high definition map of classroom teaching it provides mentorship for survival and thriving in the profession Comprehensive without being laboured rich in concepts without succumbing to clutter ingeniously economic in the identification of key themes without being trifling Savage and Fautley manage to distil the important and inspiring from vast amounts of theory research and practical experience of teaching and present the essential elements in a most accessible manner for early career teachers More experienced educators will also find many gems to renew and inspire their practice The approach is pragmatic whilst never seeking to trivialise the challenges of teaching or the vast amounts of extant theories Most importantly the reflective questions at the end of each section serve to provoke further thinking research and action thus contributing meaningfully to the development of effective and reflective teachers for contemporary schools Regina Murphy PhD Senior Lecturer St Patrick's College Dublin City University Ireland The construction of this book is very satisfying it is so straightforward to access and simultaneously works at so many levels Using the tried and tested structure of an A to Z listing Jonathan Savage and Martin Fautley consider a number of highly significant aspects of education pedagogy and professional issues for teachers at all stages of their professional development In their consideration of some 103 topics they skilfully blend key theoretical underpinning with current practice in the classroom making this book extremely useable by teachers in all sectors and age phases The range of topics makes this especially useful because it covers some big issues but also explores some less frequently covered things such as audience and elicitation What I have found particularly helpful is the fact that in this book I readily recognise aspects of my own classroom practice in the overview of each topic but I am encouraged and inspired to reflect more deeply on my professional development in the light of the collected wisdom and challenging questions This book will be an invaluable tool for training and beginning teachers as well as for those with years of experience The inclusion of key questions and further reading means that it can serve as a very accessible reference book an aide memoir or as a stimulus for more detailed debate discussion or professional development Consequently it will support the work of individuals department or phase teams or even larger groups The potential to individualise training and coaching by referring trainees to relevant entries is great I will certainly want to use it when working with trainee teachers and also with teachers undertaking CPD and Masters qualifications I look forward to Volume 2 appearing in the future Simon Spencer Birmingham City University UK I am delighted to welcome this brief but important compendium of the A Z of Teaching written by Jonathan Savage and Martin Fautley authors with extensive experience of teaching This book provides eloquent insights and distilled definitions of key terms and concepts in an introductory way that will inform inspire engage and help navigate through the maze of key terms which busy students in initial teacher education and practising teachers simply must read Pamela Burnard Faculty of

Education University of Cambridge UK This is a very entertaining and well structured resource written in easy and accessible language It contains a serious carefully referenced introduction to a number of major issues encountered in the early stages of learning to teach It will be equally useful for beginners or experienced teachers and mentors as it gives practical guidance about some of the areas for discussion coaching and assistance which commonly arise when learning to teach Professor Janet Hoskyns Head of School Education Birmingham City University UK *A-Z Of Teaching* Savage, Jonathan,Fautley,

Understanding Hard to Maintain Behaviour Change Ron Borland,2014-02-03 The book presents an integrative theory of hard to maintain behaviours that includes hard to reduce or eliminate behaviours like smoking and other drug use overconsumption of food or unsafe sex and hard to sustain behaviours like exercise and sun safe behaviours Most of the examples come from the author s work on tobacco smoking but it is relevant to anyone who is concerned to understand why some forms of desirable behaviour are so hard to achieve and to those trying to help people change It also has important implications for public health campaigns and for the development of policies to nudge behaviour in desirable ways The book provides readers with frameworks to Determine whether a hard to maintain behaviour is a result of the skills needed to perform it its reinforcement history the way the person thinks about it the context or some combination of these Better integrate cognitive and behavioural change strategies including emergent strategies related to mindfulness and acceptance plus novel ways of retraining operational processes Understand the different nature of challenges for behaviours where multiple attempts are typically required before the desired behaviour pattern is sustained Better understand the role of feelings and emotions as influences on behaviour Understand the limits of environmental factors to determine change Understand the limits of self control and will power Creative Metaphor, Evaluation, and Emotion in Conversations about Work Jeannette Littlemore,Sarah Turner,Penelope Tuck,2023-09-06 This book explores the roles played by creative and conventional metaphor in expressing positive and negative evaluation within a particular workplace drawing on interviews with 31 current and former employees of the British Civil Service Metaphor is often used to express evaluation but relatively few studies have investigated the ways in which metaphor is used to evaluate personal emotionally charged experiences The

volume explores how metaphor serves a predominantly evaluative function with creatively used metaphors often more likely than conventional metaphors to perform an evaluative function particularly when the evaluation is negative or ambiguous The findings provide a deeper understanding of the relationship between evaluation creativity and metaphor Examples including military metaphors and family metaphors show how creativity often comes through subverting the norms of use of a particular metaphor category or altering the valence from its conventional use The study elucidates the myriad ways in which people push at the boundaries of linguistic creativity in their efforts to describe the qualitative nature of their experiences Demonstrating how metaphor can be a powerful tool for the nuanced expression of complex and ambiguous evaluation this book will appeal to researchers interested in better understanding metaphor creativity evaluation and workplace cultures

Self-Experience Manuel García-Carpintero, Marie Guillot, 2023 *Self Experience* explores some of the questions running through the ongoing debate on the putative subjective dimension of experience surveys various domains of human experience where a sense of self might be at play and offers insights into the possible relations between the notions of subjective awareness involved

Liminality in Fantastic Fiction Sandor Klapcsik, 2012-01-09 This critical work diversifies Victor Turner's concept of liminality a basic category of postmodernism in which distinct categories and hierarchies are questioned and limits erode Liminality involves an oscillation between cultural institutions genre conventions narrative perspectives and thematic binary oppositions Grounded on this notion the text investigates the liminality in Agatha Christie's detective fiction Neil Gaiman's fantasy stories and Stanislaw Lem's and Philip K Dick's science fiction Through an examination of destabilized norms this analysis demonstrates that liminality is a key element in the changing trends of fantastic texts
