Office of Budget and Planning, 2025-05-02 The global economy has proven resilient in the post pandemic period with global disinflation continuing but with significant remaining uncertainty. This backdrop and transformations in the economic landscape are driving strong demand for Fund engagement. The proposed budget is guided by the longstanding principle of budget prudence. Notwithstanding a modest proposed structural top up to supplement critical cybersecurity related needs, overall net resourcing to departments will decline given ongoing unwinding of temporary pandemic era resources. *The Digital and AI Coaches' Handbook* Jonathan Passmore, Sandra J. Diller, Sam Isaacson, Maximilian Brantl, 2024-06-28 This comprehensive practitioner guide supports coaches in developing their understanding of digital technologies and how to work in ever changing digital environments and shows coaches how to craft their own practices to take advantage of working online. The practice of coaching is undergoing significant change with technology widely embedded and used in professional coaching services today. Coaching practitioners worldwide are adapting to digital environments and a host of new technological tools have come into play from the developments in virtual reality to AI informed coaching and from coaching bots to workplace apps. Edited by Jonathan Passmore, Sandra J. Diller, Sam Isaacson and Maximilian Brantl, this third book in the acclaimed Coaches Handbook Series brings together internationally respected coaching experts and practitioners to share the most up to date know how. The book takes you through key technical developments, the critical factors in making digital coaching successful and how to build a coaching business using these technologies. The book also considers the impacts on the wider industry and concludes with a number of case studies of global coaching organisations and their experiences of using digital techniques including CoachHub and EZRA.
