Analysing Newspapers An Approach From Critical Discourse Analysis Paperback:

Analysing Newspapers John E. Richardson, 2007 Publisher description **Language and Journalism** John Richardson, 2013-09-13 This book is an indispensable cutting edge book for students and researchers of journalism studies seeking a text that illustrates and applies a range of linguistic and discourse analytic approaches to the analysis of journalism. While the form, function and politics of the language of journalism have attracted scholars from a wide range of academic disciplines, too often this analysis has reduced the work of journalists to text characteristics alone. In contrast, this collection is united by the principle that journalistic discourse is always socially situated and the result of a series of processes produced by journalists in accordance with particular production techniques and in specific institutional settings and as such analysis requires more than the methods offered by linguists. The contributors to this book draw on a range of the most prominent theoretical and methodological approaches to media discourse including Conversation Analysis, Critical Discourse Analysis, the APPRAISAL framework, Multi-modal Analysis and Rhetoric in making sense of the language of newspapers, national, local and minority press, television and online journalism. Written in an engaging style by distinguished academic authorities, this book provides a state of the art review of the subject. This book was published as a special issue of *Journalism Studies*.

Critical Discourse Analysis, Critical Discourse Studies and Beyond Theresa Catalano, Linda R. Waugh, 2020-09-28 This book explores the problem-oriented interdisciplinary research movement comprised of Critical Discourse Analysis (CDA) and Critical Discourse Studies (CDS) for scholars, teachers and students from many backgrounds. Beginning with a Preface by renowned CDA/CDS scholar Ruth Wodak, it introduces CDA/CDS through examples of what its research looks like, delineates various precursors to CDA/CDS and important foundational concepts and theories and traces its development from its early years until it became established. After the relationship between CDA and CDS is discussed, seven commonly cited approaches to CDA/CDS are outlined, including their connections and differences, their origins and development, major and associated scholars, research focus areas and central concepts and distinguishing features. After a summary of critiques of CDA/CDS and responses by CDA/CDS scholars, the book provides an overview of its salient connections to other interdisciplinary areas of scholarship such as critical applied linguistics, education, anthropology, ethnography, sociolinguistics, gender studies, queer linguistics, pragmatics and ecolinguistics. The final chapter describes how scholars use their knowledge of CDA/CDS to make a difference in the world. The Routledge Handbook of Critical Discourse Studies John Flowerdew, John E.
