Handbook of Research on Advancing Equity and Inclusion Through Educational Technology Escudeiro, Paula, Escudeiro, Nuno, Bernardes, Oscar, 2023-08-09. Digital technologies play a significant role in the popular imagination about the future of education as they are a prominent aspect of modern education provision and practice across the globe. Due to the increased adoption of digital education materials during the COVID-19 pandemic, the pedagogical significance of digital technology has been amplified. *Advancing Equity and Inclusion Through Educational Technology* builds upon the available literature in equity and inclusion through educational technology while providing further research opportunities in this dynamic and growing field. It provides the opportunity for reflection on this crucial issue by increasing the understanding of the importance of inclusion and equity in the context of educational improvements and providing relevant academic work, empirical research findings and an overview of this relevant field of study. Covering topics such as sustainable inclusion, learning, virtual school, press programs and generic skills, this major reference work is a comprehensive and timely resource for educators and administrators of both K-12 and higher education, government officials, pre-service teachers, teacher educators, librarians, researchers and academicians.

Sustainable Green Infrastructure Ekarizan Shaffie, Rohana Hassan, Ahmad Kamil Arshad, Norshariza Mohamad Bhkari, Muhd Norhasri Muhd Sidek, 2025-03-14. This book highlights the integration of eco-friendly infrastructure, innovative materials and advanced technologies to build sustainability and resilience in both urban and rural environments. It explores the sustainability principles, highlighting how green infrastructure can reduce environmental impacts, improve quality of life and ensure long-term ecological balance. The text emphasizes the importance of technological innovations in achieving sustainable development goals, offering insights into the latest advancements and their applications in creating resilient communities. It significantly contributes to the field by offering in-depth insights into sustainable development across various domains, including timber, pavement construction and technology. This volume is a crucial addition to existing literature, serving as an essential reference for future research and application in green infrastructure materials and technologies. Its wide-ranging content makes it an indispensable resource for professionals, scholars and students dedicated to progressing the areas of green infrastructure and sustainable

technological practices **The Mathematical Questions Proposed in the Ladies' Diary** Thomas Leybourn, 1817 **EU Energy and Climate Policy after COVID-19 and the Invasion of Ukraine** Matúš Mišík, Andrea Figulová, 2024-10-14 This book discusses the impact of the COVID 19 pandemic and the Russian invasion of Ukraine on the European Union's climate and energy policy. By examining the positions of the various actors involved, the book analyses whether the COVID 19 pandemic and the Russian invasion of Ukraine has contributed to greater unity, decarbonisation and security of energy supply, and if not, whether these crises prompted member states to turn inwards and opt for national solutions to climate and energy challenges. It thus provides a new outlook for EU energy policy in relation to the experience of the two crises. This book will be of key interest to scholars, students and practitioners of climate and energy policy, energy security, EU policy and more broadly to energy politics, European integration and European Union governance.
