It is often remarked that critical and especially Marxist state theory began to lose its central place in the study of comparative politics in the 1980s Ironically this shift occurred just as neoliberal policies were transforming the social form and spatial scales of the state radically restructuring the practices of state economic intervention and extending the capabilities of the coercive arms of the state This volume addresses the impoverishment of state theory over the last decades and insists on the continued salience of class analysis to the study of states The book s title *State Transformations* reflects several central themes in the comparative study of states the neoliberal restructuring of capitalist states the changing economic and political architecture of imperialism and the prospects of a democratic transformation of capitalist states The essays collected here on these themes are in honor and memory of Leo Panitch whose influential body of work has shaped debates on the state imperialism and socialism over the past four decades Contributors are Clyde W Barrow Caio Bugiato Frank Deppe Ruth Felder Ana Garcia Sam Gindin Doug Henwood Martijn Konings Colin Leys Sebnem Oguz Bryan D Palmer Dennis Pilon Larry Savage Charles Smith Michalis Spourdalakis and Hilary Wainwright **Ars belli et pacis, siue, De bello feliciter gerendo et pace firmiter stabilienda libri duo** Franciscus David Bonbra,1643
