Head & Neck Surgery--otolaryngology Byron J. Bailey, Jonas T. Johnson, Shawn D. Newlands, 2006 Newly revised and updated this comprehensive easy to use two volume otolaryngology text is now in its Fourth Edition More than 30 new chapters are included that reflect advances in the field such as outcomes and evidence based medicine surgical management of nasal valve collapse and choanal atresia immunology and allergy allergic and non allergic rhinitis complications of rhinosinusitis management of dysphagia radiographic examination of the upper aerodigestive tract endoscopic evaluation of the upper aerodigestive tract cosmetic uses of Botox and more Coverage includes both adult and pediatric otolaryngology All chapters are written by distinguished world renowned authorities and contain summary highlights boxes summary tables and end of

chapter reviews More than 2 500 illustrations complement the text **The Anatomy Museum** Elizabeth Hallam,2008
Anatomy museums around the world showcase preserved corpses in service of education and medical advancement but they are little known and have been largely hidden from the public eye Elizabeth Hallam here investigates the anatomy museum and how it reveals the fascination and fears that surround the dead body in Western societies Hallam explores the history of these museums and how they operate in the current cultural environment Their regulated access increasingly clashes with evolving public mores toward the exposed body as demonstrated by the international popularity of the Body Worlds exhibition The book examines such related topics as artistic works that employ the images of dead bodies and the larger ongoing debate over the disposal of corpses Issues such as aesthetics and science organ and body donations and the dead body in Western religion and ritual are also discussed here in fascinating depth The Anatomy Museum unearths a strange and compelling cultural history that investigates the ideas of preservation human rituals of death and the spaces that our bodies occupy in this life and beyond *Manual of Practical Anatomy: Thorax, head and neck* Daniel John Cunningham,1908
