Healthcare Design and Other Oxymorons Nick Devenney,2011-01-31 If you have ever experienced prolonged contact with Architects you know they are a subspecies that sees the world through kaleidoscopic glasses nothing focused ever changing unpredictable and beautiful Healthcare Design and Other Oxymorons is a peek through a pair of those glasses mine We will ricochet from opinions to experiences to poems to philosophies arranged in no particular order straight from my pinball mind I have always known I wanted to be an architect virtually springing from the womb T square in hand Maybe that s why Mother never liked me Most architects will tell you they have always known they wanted to be an architect One does not dabble in various jobs and eventually decide to try architecture next Architecture is an easily identifiable job like a fireman or doctor which children can understand and adopt at an early age Professions like insurance agent union boss or florist don t seem to light the fire of a five year old But an architect wow Unfortunately architects do not have hero status like firemen or doctors Architects are much maligned I think by bad rumors started by evil contractors Stuff like Architects can t keep a budget can t meet a schedule and can t stop leaks cracks or squeaks All this is very true We have good reasons but exploring them has already been done in stunning boredom in many other books Not this one Some of my friends I think have read parts of this book as it was being written and have questioned why I would mix so many topics healthcare sustainability religion growing up politics ethics etc into a book about the practice of architectural design The answer is that every one of these topics influences architecture and to a great extent architecture influences them There cannot be a serious discussion about the design of a church or a town or a hospital without understanding the relationships that civility politics religion etc have on design goals So skip around read the parts you like and avoid parts that you don t agree with Maybe later you will go back to the skipped parts I hope

The Last Man Who Knew Everything Mike Hockney,2013-07-25 Three hundred years ago it was possible to have read all of the important books in the world Most intelligent people of the time believed the world was a living organism Matter was alive hylozoism or mind was everywhere panpsychism or God was everywhere theism or God and Nature were one pantheism A hundred years later the world was viewed as a vast purposeless machine Either there was no God atheism or he was a remote God of Laws deism and not of revelation and salvation Leibniz was the last genius to know everything and to accept that the universe was an organism a mathematical organism Leibniz was the secret author of the Illuminati s Grand Unified Theory of Everything based on nothing He created an entire universe out of a Big Bang singularity comprising infinite monads zeros each with infinite energy capacity This is the story of the first mathematical Theory of Everything Leibniz s

monads have one last incredible secret to reveal they are souls *Life in the Universe* James Newsome Pierce,2008 This book explores the science of extraterrestrial life with a particular emphasis on the existence of intelligent alien civilizations It introduces the reader to the basic chemistry associated with life on Earth and describes the planetary and stellar environments that allow us to exist It also discusses the likelihood of alien life developing at other locations in our galaxy along with the possibility that we will meet or communicate with them This book is suitable for use as a text in an introductory Life in the Universe course REVIEWS Blog Critics Magazine written by Regis Schilken <http://blogcritics.org/archives/2009/03/16/082715.php> The God Factory Mike Hockney,2011-10-23 Illumination the religion of the Ancient Order of the Illuminati began with Pythagoras and is the world s only Logos religion i e a rational religion founded on mathematics science and philosophy It has no connection with Mythos religions such as Judaism Christianity and Islam Illumination is the Grand Unified Theory of Everything linking science religion psychology philosophy and even the paranormal It does so via the only medium of truth and absolute knowledge mathematics which Pythagoras enigmatically declared to be the arche the fundamental substance of existence Whereas science is based on mathematical materialism Illumination uses Leibnizian mathematical idealism This is one of a series of books providing the ultimate answers to the nature of existence
