

Case Problem 2

Data File needed for this Case Problem: House.xlsx

Tidy House Every two weeks, Tierra Waggoner collects payroll information for the employees who work at her housekeeping business in Terre Haute, Indiana. The worksheet with the information is sent to a payroll service that generates the paychecks. Tierra has started to collect the information, but she needs you to clean up the data before she sends it to the payroll service. Complete the following:

1. Open the **House** workbook located in the ExcelA > Case2 folder included with your Data Files, and then save the workbook in the Excel Workbook format as **Housekeeping** in the location specified by your instructor.
2. In the Documentation worksheet, enter your name and the date.
3. In the Employee Hours worksheet, create an Excel table named **EmployeeTbl** with a blue table style.
4. Split the data in the Name column into two columns. Store the first name data in column A and the last name data in column B. Change the column headers to **First Name** and **Last Name**, respectively.
5. Split the data in the City, State Zip column into three columns. Store the city data in column D, the state data in column E, and the zip codes in column F. (Hint: First split the data into four columns: City, comma, State, Zip. Then, delete the column with the comma.) Change the column headers to **City**, **State**, and **Zip**, respectively.
6. Use functions as needed to change the data in the City and State columns to use standard capitalization. (Hint: Remember to copy the data as values and remove any unnecessary columns.)
7. Apply the Social Security Number format to the data in the SS Number column.
8. Use a function to change the data in the Type of Work column so that it is all lowercase. (Hint: Remember to copy the data as values and remove any unnecessary columns.)
9. Apply a custom format to the data in the Hourly Rate column that shows two decimal places.
10. Apply a custom format to the data in the Overtime Hours column so that full hours display only significant digits and partial hours display two digits whether significant or insignificant. (Hint: Refer to Figure A-11 to see a description of the digit placeholders used in custom formats for values.)
11. Save the workbook, and then close it.
