Trauma and Embodied Healing in Dramatherapy, Theatre and Performance J. F. Jacques, 2024-03-11. This edited volume explores the singularity of embodiment and somatic approaches in the healing of trauma from a dramatherapy, theatre, and performance perspective. Collating voices from across the fields of dramatherapy, theatre, and performance, this book examines how different interdisciplinary and intercultural approaches offer unique and unexplored perspectives on the body as a medium for the exploration, expression, and resolution of chronic, acute, and complex trauma, as well as collective and intergenerational trauma. The diverse chapters highlight how the intersection between dramatherapy and body-based approaches in theatre and performance offers additional opportunities to explore and understand the creative, expressive, and imaginative capacity of the body and its application to the healing of trauma. The book will be of particular interest to dramatherapists and other creative and expressive arts therapists. It will also appeal to counsellors, psychotherapists, psychologists, and theatre scholars.
