The Pursuit of Human Well-Being Richard J. Estes, M. Joseph Sirgy, 2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities

Ukraine Over the Edge Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovych and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass

Family Life, Family Law, and Family Justice Marsha Garrison, 2022-10-28 Family Life Family Law and Family Justice Tying the Knot combines history social science and legal analysis to chart the evolution and interdependence of family life and family law portray current trends in family life explain the pressing policy challenges these trends have produced and analyze the changes in family law that are essential to meeting these challenges The challenges are large and pressing

Across the industrialized West nonmarital birth relational stress multi partner fertility and relationship dissolution have increased producing a dramatic rise in single parenthood poverty and childhood risk This concentration of familial and economic risk accelerates socioeconomic inequality and retards intergenerational mobility Although the divide is most pronounced in the United States the same patterns now affect families throughout the Western world Across the European Union there are 9.2 million lone parents and just under half of their families live in poverty Tying the Knot demonstrates how today's family patterns are deeply rooted in long standing class based differences in family life and explains why these class based differences have accelerated It explains how the values that guide family law development inevitably reflect the world in which families live and develops a new family law capable of meeting the needs of twenty first century families The book will be of considerable interest to family specialists from a number of fields including law demography economics history political science public health social policy and sociology

Histories of Technology, the Environment and Modern Britain Jon Agar, Jacob Ward, 2018-04-09 Histories of Technology the Environment and Modern Britain brings together historians with a wide range of interests to take a uniquely wide lens view of how technology and the environment have been intimately and irreversibly entangled in Britain over the last 300 years It combines for the first time two perspectives with much to say about Britain since the industrial revolution the history of technology and environmental history Technologies are modified environments just as nature is to varying extents engineered Furthermore technologies and our living and non living environment are both predominant material forms of organisation and self organisation that surround and make us Both have changed over time in intersecting ways Technologies discussed in the collection include bulldozers submarine cables automobiles flood barriers medical devices museum displays and biotechnologies Environments investigated include bogs cities farms places of natural beauty and pollution land and sea The book explores this diversity but also offers an integrated framework for understanding these intersections

Rethinking Climate Change, Conflict and Security Jan Selby, Clemens Hoffmann, 2017-10-02 Is global climate change likely to become a significant source of violent conflict and should it therefore be seen as a national security challenge Most Northern governments militaries think tanks and NGOs believe so as do many academic researchers on the grounds that increased temperatures changing precipitation patterns and rising sea levels will worsen existing social stresses especially within poor societies and marginal communities across Africa and Asia This book argues otherwise The first collection of its kind it brings together leading scholars of Anthropology Geography Development Studies and International Relations to provide a series of critical analyses of mainstream thinking on the climate security nexus It shows how policy discourse on climate conflict consistently misrepresents the causes of violence especially by obscuring its core political dimensions It demonstrates that quantitative research provides a flawed basis for understanding climate conflict linkages It argues that climate security discourse is in hoc with a range of questionable military authoritarian and developmental agendas And it reveals that the greening of global capitalism is

already having violent consequences across the global South Climate change the book argues does indeed have serious conflict and security implications but these are quite different from how they are usually imagined This book was published as a special issue of Geopolitics Key Determinants of National Development Kwaku Appiah-Adu, Mahamudu Bawumia, 2016-03-09 For those wishing to acquire knowledge on national development issues this comprehensive compendium traverses a spectrum of subjects that the audience ought to be well acquainted with The Editors provide instructive findings regarding national development economic growth and their determinants but they also offer historical perspectives on the subject and the implications for developing countries The book addresses a suite of critical themes regarded by development experts to be germane in considering the pertinence of policies and their effective execution These seven general thematic areas are explored Leadership governance policy and strategy Public sector and public financial management Culture institutions and people Natural resources Science technology and infrastructure Private sector and financial markets Marketing branding and service delivery This thematic approach enables the contributors to explore the impact of the constituents of each subject area on national development within the context of a developing economy The significance of the findings for the relevant stakeholders is consequently reviewed The combination of theory and practice makes the book and its contents unique

Towards a Learning State Ferid Belhaj, Roberta Gatti, Daniel Lederman, Hoda Assen, Ernest John Sergenti, Rana Lotfi, Mennatallah Mousa, 2022-10-06 The MENA region is facing important vulnerabilities which the current crises first the pandemic then the war in Ukraine have exacerbated Prices of food and energy are higher hurting the most vulnerable and rising interest rates from the global tightening of monetary policy are making debt service more burdensome Part I explores some of the resulting vulnerabilities for MENA MENA countries are facing diverging paths for future growth Oil Exporters have seen windfall increases in state revenues from the rise in hydrocarbon prices while oil importers face heightened stress and risk from higher import bills especially for food and energy and the depreciation of local currencies in some countries Part II of this report argues that poor governance and in particular the lack of government transparency and accountability is at the root of the region's development failings including low growth exclusion of the most disadvantaged and women and overuse of such precious natural resources as land and water

Financialising City Statecraft and Infrastructure Andy Pike, Peter O'Brien, Tom Strickland, John Tomaney, 2019 Financialising City Statecraft and Infrastructure addresses the struggles of national and local states to fund finance and govern urban infrastructure It develops fresh thinking on financialisation and city statecraft to explain the socially and spatially uneven mixing of managerial entrepreneurial and financialised city governance in austerity and limited decentralisation across England As urban infrastructure fixes for the London global city region risk undermining national rebalancing efforts in the UK city statecraft in the rest of the country is having uneasily to combine speculation risk taking and prospective venturing with co ordination planning and regulation Global Financial Stability Report, April 2016 International Monetary Fund. Monetary

and Capital Markets Department,2016-04-11 The current Global Financial Stability Report April 2016 finds that global financial stability risks have risen since the last report in October 2015 The new report finds that the outlook has deteriorated in advanced economies because of heightened uncertainty and setbacks to growth and confidence while declines in oil and commodity prices and slower growth have kept risks elevated in emerging markets These developments have tightened financial conditions reduced risk appetite raised credit risks and stymied balance sheet repair A broad based policy response is needed to secure financial stability Advanced economies must deal with crisis legacy issues emerging markets need to bolster their resilience to global headwinds and the resilience of market liquidity should be enhanced The report also examines financial spillovers from emerging market economies and finds that they have risen substantially This implies that when assessing macro financial conditions policymakers may need to increasingly take into account economic developments in emerging market economies Finally the report assesses changes in the systemic importance of insurers finding that across advanced economies the contribution of life insurers to systemic risk has increased in recent years The results suggest that supervisors and regulators should take a more macroprudential approach to the sector
