2014 November Economics A Level Questions Zimsec:

Financial Inclusion Regulatory Practices in SADC Howard Chitimira,Tapiwa Warikandwa,2023-05-25 Against a background of calls to prioritise the improvement of financial inclusion in Africa this book provides an analysis of current financial inclusion measures in Southern Africa Evaluating the existing strengths and weaknesses of financial inclusion in Africa it identifies opportunities to improve inclusive financial services and aid poverty reduction in the region With a focus on South Africa Namibia Botswana and Zimbabwe as case studies for assessing current financial inclusion in the context of particular challenges faced by unbanked and underbanked customers who are easy targets for cybercriminals due to low levels of digital literacy it looks into the regulation and promotion of financial inclusion in Southern Africa The book explores financial inclusion in the context of digital transformation in the 21st century examining the regulation and promotion of financial inclusion in the context of digital transformation as well as the challenges related to financial inclusion Suggesting improvements to aspects of company law securities and financial markets in the Southern African Development Community region the book offers a comprehensive study on the regulation and promotion of financial inclusion in the Southern African Development Community region It will be essential reading for students and academics researching financial inclusion international economic law and development

Climate Change 2014 - Impacts, Adaptation and Vulnerability: Regional Aspects Christopher B. Field,Vicente R. Barros,2014-12-29 This latest Fifth Assessment Report of the Intergovernmental Panel on Climate Change IPCC will again form the standard reference for all those concerned with climate change and its consequences including students researchers and policy makers in environmental science meteorology climatology biology ecology atmospheric chemistry and environmental policy

Christian Theological Education and the Response to the Crisis in Zimbabwe Bekithemba Dube,Gift Masengwe,2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union Patriotic Front ZANU PF referred to as Zanupfism characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions engendering a profound generational crisis within Zimbabwe The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II a ruler notorious for his autocratic reign and expansive ambitions Further critically scrutinizing the complicity of neo Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine diverging from a theology rooted in justice thereby enabling the oppressive regime s practices This critique underscores the imperative for prophets to recalibrate their theological perspectives urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice The book further encompasses the complex interplay of political and religious narratives examining how church leaders either bolster or undermine Mnangagwa s political ideology highlighting the tendency among certain religious factions to

deify political authority ultimately exacerbating societal inequities In advocating for a transformative theological discourse in Zimbabwe the book asserts that religious narratives must serve as instruments for fostering democracy social justice and equity rather than sustaining a status quo that entrenches authoritarian governance The necessity for unified principled resistance grounded in the collective agency of the populace emerges as a salient theme in the quest for meaningful political and social reform

How China is Reshaping the Global Economy Rhys Jenkins, 2022-06-16 China's growing economic involvement in Sub Saharan Africa and Latin America has been a source of major controversy The official Chinese position maintains that the growth of bilateral relations is of mutual benefit and provides a good example of South South cooperation Critics on the other hand see the economic relations between China and other developing countries as highly unequal with most of the benefits accruing to China and a few local elites They also point to negative socio economic political and environmental consequences *How China is Reshaping the Global Economy Development Impacts in Africa and Latin America* throws more light on these controversies through a comparative study of China's impact on the two regions It looks not just at bilateral relations between China and the two regions but also analyses the changes in the global economy brought about as a result of the shift in economic activity from North America and Western Europe to Asia This book looks at the factors which led to rapid economic growth in China and the way in which this has affected global manufacturing commodity markets the international presence of Chinese companies and financial flows It examines the different forms of Chinese economic involvement in Sub Saharan Africa and Latin America the main drivers and economic social political and environmental consequences It ends with a comparison of the two regions that highlights the importance of different histories and political and institutional contexts in determining the impacts of China Since the first edition of *How China is Reshaping the Global Economy Development Impacts in Africa and Latin America* China's role in the global economy has continued to expand and the Chinese government's foreign policy has become more assertive The global presence of China has been marked by the expansion of the Belt and Road Initiative to almost 150 countries and the trade war between the US and China as well as increased Western concerns over the activities of major Chinese companies such as Huawei This new edition documents these changes and their implications for SSA and LAC

Inequality and Political Cleavage in Africa Catherine Boone, 2024-04-25 Extensive data maps and case histories show how competition between rich and poor regions drives African politics not ethnic diversity

Environmental Impacts of Transnational Corporations in the Global South Paul Cooney, William Sacher, 2018-11-30 This volume explores the impact of Transnational Corporations TNCs on the environment of the Global South during this period of neoliberal globalization It develops themes around transnational extractive activity the impact of transnational capital on indigenous populations and the role played by international institutions

The Cost of Free Money Paola Subacchi, 2020-09-15 A penetrating account of how unchecked capital mobility is damaging international cooperation polarizing the economic landscape and ultimately reshaping the global order When it comes to the

afflictions of the global economy almost everyone and especially Donald Trump is quick to point the finger of blame at the state of international trade But what about unconstrained capital flows Unfettered capital has resulted in a string of financial and economic crises that have left our political systems strained and dialogue corroded The once perceived benefits of openness have been cast to the wayside and the cracks in the global order can no longer be ignored Paola Subacchi argues that international cooperation and interdependence have become crippled Regional restrictions will soon strengthen and a multipolar order will take shape leading to a distinctly transformed economic landscape in which China challenges the dominance of the US dollar Combining history analysis and prediction this book provides penetrating insight into the challenges facing the international economic order **International Business** Shad Morris,James Oldroyd,2023-03-21 An incisive and comprehensive exploration of international business in the modern world In the newly updated third edition of International Business an accomplished team of educators and business practitioners delivers a revitalized approach to the discipline that brings international business to life This latest edition of the book includes one of a kind chapters on sustainability poverty and innovation as well as new Mini Simulation activities explorations of the Covid 19 pandemic and its effects on commerce the business implications of social and civic justice race and inequality debates new whiteboard animations a video and podcast series and new case studies on equity diversity and inclusion at Microsoft International Business efficiently prepares students for the global economy and transforms the authors impressive international experience at multi national corporations into an indispensable pedagogical resource Engendering Democracy in Africa Niamh Gaynor,2022-06-01 This book investigates women s political participation in Africa Going beyond the formal institutions of electoral politics it explores a range of spaces where everyday politics take place at national and at local levels In recent years there have been significant improvements in the number of women elected to parliament in Africa However there is little indication that this is translating into better developmental outcomes and indeed there is mounting evidence that it could in fact help to bolster some authoritarian regimes Starting from the premise that politics is a far broader project than securing a seat in national or local legislatures alone this book explores the opportunities for women s political participation across a number of informal spaces where women and men gather organise and interact in a more regular and systematic manner Combining insights from political science sociology and feminist theory and drawing on detailed cases from the Congo Kenya Malawi Nigeria and Rwanda it examines how power in its multiple dimensions circulates across a range of everyday political spaces while drawing attention to the links between domestic gender inequalities and the global political economy Inviting scholars practitioners and activists to broaden their focus beyond formal electoral institutions if they want to support women to become more politically active this book provides fresh insights into major issues at the heart of African studies development studies gender and development democratisation and international relations *The Struggles of Post-Independence Nigeria* Ucheoma Nwagbara,2022-02-01 In The Struggles of Post Independence Nigeria Ucheoma

Nwagbara argues that despite Nigeria's oil wealth and arable agricultural land Nigerians are not any better today than they were before independence. Nwagbara examines Nigeria's struggles with corruption, reckless government spending, poverty, inequality, crime, and violent insurgency to show how successive Nigerian leadership has failed to utilize the country's enormous natural and human resources to improve citizens' lives, eradicate poverty, and deliver broadly shared prosperity, especially to the middle class and the poor. Through his analysis, Nwagbara demonstrates that the nationalist ideals of dedicated and accountable leadership behind the struggle for independence in Nigeria have been betrayed, as the emergent post-colonial leadership cared only for personal survival and gain. Despite these failures, Nwagbara reveals that Nigeria may still have a chance to improve and recover if Nigerians unite and demand real change through political and social activism.

Agricultural Adaptation to Climate Change in Africa Cyndi Spindell Berck, Peter Berck, Salvatore Di

Falco, 2018-03-05 A changing climate is likely to have a drastic impact on crop yields in Africa. The purpose of this book is to document the effects of climate change on agriculture in Africa and to discuss strategies for adaptation to hotter weather and less predictable rainfall. These strategies include promoting opportunities for farmers to adopt technologies that produce optimal results in terms of crop yield and income under local agro-ecological and socioeconomic conditions. The focus is on sub-Saharan Africa, an area that is already affected by changing patterns of heat and rainfall. Because of the high prevalence of subsistence farming, food insecurity, and extreme poverty in this region, there is a great need for practical adaptation strategies. The book includes empirical research in Ethiopia, Kenya, South Africa, Tanzania, and other Sub-Saharan countries, and the conclusion summarizes policy-relevant findings from the chapters. It is aimed at advanced students, researchers, extension and development practitioners, and officials of government agencies, NGOs, and funding agencies. It also will provide supplementary reading for courses in environment and development and in agricultural economics.

Inequality and Climate Change Delgado-Ramos, Gian Carlo, 2015-12-01 Climate change is one of the most pressing challenges of the twenty-first century. Anthropogenic activities such as fossil fuel consumption and other activities focused on enhancing economic growth have been identified as the main drivers of changes in the environment that defy planetary boundaries. The transgression of planetary boundaries has profound implications for practically all biophysical and human systems, and their impact could also be related to the exacerbation of existing problems such as land tenure insecurity, poverty, and inequality, marginalization of poorer populations, climate-induced migration, and resource wars or conflicts. From a global South perspective, research on the multifaceted nature of climate change is thus necessary and appropriate, including the analysis of socioeconomic, political, and cultural aspects. This book is an outcome of the Comparative Research Workshop on Inequality and Climate Change Perspectives from the South of the South-South Collaborative Programme of CLACSO, CODESRIA, IDEAS. It gathers a diversity of case studies from the South with ample biophysical differences and particular social and cultural realities. As such, it is a fresh contribution offering a vantage point from which to examine some of the current perspectives on

inequality and climate change **Gender, Unpaid Work and Care in India** Ellina Samantroy, Subhalakshmi Nandi, 2022-05-09 This book explores the paradox of women's paid and unpaid work in India. It examines key themes including historical discourses, macroeconomic policies, employment trends, issues of tribal areas, public services and infrastructure, climate change and gendered migration and vulnerability of girl children. It highlights the play of gender norms, resource rights, identities and agency in women's work. Building on feminist theoretical frameworks and empirical analyses from microstudies, the volume offers fresh perspectives for research and policy on women's work in the Global South. A timely intervention, this multidisciplinary book will be useful to scholars and researchers of political economy, labour studies, women's gender studies, public policy, economics, development studies, sociology, South Asian studies and Global South studies. It will interest planners, policymakers, gender advocates, civil society organisations, human rights bodies and international organisations working towards ensuring gender equality and women's rights.

The pursuit of sustainable agriculture in EU free trade agreements Luchino Ferraris, 2023-09-14 This book explores the extent to which EU Free Trade Agreements (FTAs) pursue sustainable agriculture in third country parties. It contends that this should be part of a duty for the EU enshrined in the Treaties to promote its fundamental values in its external action. It suggests that the extent to which this occurs in practice may be reviewed judicially by the Court of Justice of the European Union. Against this background, selected agreements concluded by the EU with developed and developing countries (Canada, South Korea, Ukraine, Chile, SADC countries and Vietnam) are taken as case studies. The author concludes that in spite of the remarkable progress made hitherto, EU trade policy is still far from being in line with the increasingly strong commitment of the EU to take the lead in the international arena for environmental and climate matters. This work adopts primarily a legal methodology but it broaches the subject in interdisciplinary terms. It is addressed not only to EU policy makers but also to scholars of different fields and to the wider public interested in topics that have become of common concern for the future of our planet. With a foreword by Daniel Calleja Crespo, Director General of the European Commission DG Environment.

China and Africa in Global Context LI Anshan, 2022-02-23 This book studies the relationship between China and Africa by reviewing this history and current state of interactions, offering a valuable addition to the often heated and contentious debate surrounding China's engagement in Africa from a Chinese angle. Comprising four parts, the book covers a kaleidoscopic range of topics on China-Africa relations based on materials from different languages. Part I looks into early historical contact between China and Africa and the historiography of African Studies in China in recent decades. Part II probes the origins, dynamics, challenges and cultural heritage of China's policies towards Africa. Part III explores the issue of development cooperation from both a theoretical and a practical point of view, with a focus on the case of Chinese medical teams in Africa and China's technology transfer to the continent. Part IV illustrates bilateral migration, discussing the history and life of Chinese immigrants in Africa and the African diaspora in China. The insights in this book, as well as real life case studies, will make this work an
