Education and the Politics of Memory in Russia and Eastern Europe Sergey Rumyantsev,2025-01-21 This book examines both formal and extracurricular education and the politics of memory and historical narratives in Armenia Azerbaijan Russia and Ukraine The misalignment between memory politics and history politics forms a central theme of this book Structured in three parts it focuses on school education in the post Soviet states over the 30 years between the collapse of the Soviet Union and the 2022 Russian invasion of Ukraine The chapters inquire as to how post Soviet school education politics of memory and history politics became active participants in the production of state approved ideology patriotism and a state prescribed understanding of the national past Armed conflicts in the territory of the former USSR not only saw numerous victims and refugees but also the emergence of new borders and unrecognized de facto states and the annexation

of territories They also contributed to the creation of new sites of memory generated their own traditions of commemoration for the heroes and victims of these confrontations and led to the reconstruction of historical narratives and the construction of new national myths The research in this book foregrounds how the nationalization of the public space and the reconstruction of national historical narratives in the independent states reflect a desire to monopolize the power to interpret the past with low tolerance of alternative accounts In this light the book covers issues such as the nation state Sovietization national history creation memory politics religion mass media nationalism and patriotism and analyzes the relationship of Azerbaijani and Armenian Russian and Ukrainian societies with their histories and pasts A novel study on the topic of memory and history writing this is a timely contribution to the field of Post Soviet history and Russian and Eastern European Studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Sick Schools David V. Anderson, 2020-01-10 Who's afraid of for-profit education Those who work in non-profit or government owned and operated schools Many parents and other stakeholders have been made fearful by this education establishment What's more important to humans: nutrition or education Nutrition is more important because it is the prerequisite for other human activities including education What organizations provide food and who pays for the food Food is provided by for-profit farmers for-profit processors for-profit wholesalers and for-profit retailers Most food is purchased with the consumer's own money but a significant amount is purchased by low-income individuals using food stamps Why can't education be provided similarly using education stamps We trust for-profit enterprises to provide our food Why can't we trust for-profit enterprises to provide K-12 education Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for-profit K-12 education sector would please and amaze its customers
